Creative Fashion Presentations 2nd edition Polly Guerin, 2004-08-13 This brand new edition of Creative Fashion Presentations provides an insider's look into how creative presentations impact the introduction or sale of fashion and other products at the trade and consumer levels. The entire spectrum of professionals who use creative presentations is covered including fashion forecasters, fibre fabric companies, promotion associations, designers, manufacturers, retailers, and apparel marts. Forms of presentations discussed range from visual boards to couture and prêt à porter fashion shows. Fashion at the Edge Caroline Evans, Caroline Edwards, 2003-01-01 Caroline Evans analyses the work of experimental designers, the images of fashion photographers, and the spectacular fashion shows that developed in the final decade of the twentieth century to arrive at a new understanding of fashion's dark side and what it signifies. Drawing on a variety of literary and theoretical perspectives from Marx to Benjamin Evans argues that fashion plays a leading role in constructing images and meanings during periods of rapid change. She shows persuasively that fashion stands at the very centre of the contemporary where it voices some of Western culture's deepest concerns.

Clothing and Fashion José Blanco F., Patricia Kay Hunt-Hurst, Heather Vaughan Lee, Mary Doering, 2015-11-23 This unique four volume encyclopedia examines the historical significance of fashion trends, revealing the social and cultural connections of clothing from the precolonial times to the present day. This sweeping overview of fashion and apparel covers several centuries of American history as seen through the lens of the clothes we wear, from the Native American moccasin to Manolo Blahnik's contribution to stiletto heels. Through four detailed volumes, this work delves into what people wore in various periods in our country's past and why, from hand-crafted family garments in the 1600s to the rough clothing of slaves to the sophisticated textile designs of the 21st century. More than 100 fashion experts and clothing historians pay tribute to the most notable garments, accessories, and people comprising design and fashion. The four volumes contain more than 800 alphabetical entries, with each volume representing a different era. Content includes fascinating information such as that beginning in 1619 through 1654 every man in Virginia was required to plant a number of mulberry trees to support the silk industry in England; what is known about the clothing of enslaved African Americans; and that there were regulations placed on clothing design during World War II. The

set also includes color inserts that better communicate the visual impact of clothing and fashion across eras **Textile**
