Index to Handicraft Books, 1974-1984 Carnegie Library of Pittsburgh. Science and Technology Department, 1986 Handicrafts and do it yourself projects have always been a library's most popular and heavily requested subject And for more than a decade a definitive index to handicraft books has not been published To fill this gap the Science and Technology Department at Carnegie Library of Pittsburgh has compiled the Index to Handicraft Books listing more than 900 books and over 12 400 subject entries covering books published from 1974 to 1984 The Index to Handicraft Books is an essential reference tool for librarians who want to help someone find instructions for a varied range of do it yourself projects providing quick access to craft projects in books more recent than previous handicraft index books have listed Each entry in the index consists of a subject heading the name of the project as listed in the book the author and title of the book and the page numbers on which the project can be found The author and title correspond to those in the List of Works Cited section which gives full bibliographic information in order to help librarians find the book on their shelves or obtain the book through inter library loan Because this index developed from a card file index of craft books acquired by Carnegie Library since 1974 the list concentrates mainly on medium priced books that most libraries buy

With Her Own Hands Nicole Nehrig, 2025-08-19 A rich and intimate exploration of how women have used textile work to create meaningful lives from ancient mythology to our current moment Knitting sewing embroidery quilting throughout history these and other forms of textile work have often been dismissed as merely women's work and attached to ideas of domesticity and obedience Yet as psychologist and avid knitter

Nicole Nehrig wonderfully explores in this captivating book textile work has often been a way for women to exercise power. When their voices were silenced and other avenues were closed off to them, women used the tools they had: often a needle and thread to seek freedom within the restrictive societies they lived in. Spanning continents and centuries, *With Her Own Hands* brings together remarkable stories of women who have used textiles as a means of liberation: from an eighteenth-century Quaker boarding school that used embroidered samplers to teach girls math and geography; to the Quechua weavers working to preserve and revive Incan traditions today; and from the Miao women of southern China who, in the absence of a written language, pass down their histories in elaborate story cloths to a midcentury British women's postal art exchange. Textiles have been a way for women to explore their intellectual capacities, seek economic independence, create community, process traumas, and convey powerful messages of self-expression and political protest. Heartfelt and deeply moving, *With Her Own Hands* is a celebration of women who have woven their own stories and a testament to their resilience.
