Your Credibility, Trustworthiness and Communication Skills. Lots of Exercises Deborah Dalley, Lois Burton, 2010-02

Developing Your Influencing Skills How to influence people by increasing your credibility trustworthiness and communication skills What are the characteristics that make some people more influential than others This book will give you the keys to successfully increase your influence at work and at home It explains how becoming more influential is not about using manipulative techniques to get your own way but is about developing a set of beliefs and behaviors that make you a more influential force We have identified 7 traits that influential people share and the good news is they can be developed In this book you will discover how to Decide what your influencing goals are and state them in a compelling way Find ways to increase your credibility rating with other people Avoid manipulative practice and become more authentic Develop stronger and more trusting relationships Inspire others to follow your lead Become a more influential communicator This book is packed with case studies exercises and practical tips to help you to develop the traits required to become a more influential person All the exercises that are in the book are also in a free downloadable workbook available from <http://www.UoLearn.com> What do people say about influencing skills Interesting readable and practical everything I want from this type of book A brand new take on influencing Thought provoking and extremely helpful This book was a revelation Completely changed the way I see influencing I now believe that I can grow and develop my ability to influence by concentrating on these seven traits Very readable book which has changed my perspective on influencing I always thought of it as a set of tools and techniques but the idea of becoming more influential is much more interesting This book makes that idea feel possible I liked the whole concept of developing the traits of influential people and really liked the way they were presented I enjoyed the exercises and have started to influence people in different ways as a result Thank you for the ideas It has made me realize that perhaps I have put too much effort into influencing external clients and stakeholders and not enough time trying to be influential with my own staff I quickly realised that influencing is a much broader topic than I had imagined I gained from it an understanding that I stand a better chance of maximizing my effectiveness if I play to my own strengths rather than trying to meet other s expectations of me Most importantly I learnt that some of the influencing I see employed by others is really manipulations and not only is it not necessary but it can in fact be counterproductive to subscribe to this method It was very reassuring to hear that I don t have to become someone I m not in order to extend my influence About the authors Lois Burton and Deborah Dalley Deborah Dalley and Lois Burton both have their roots in the field of learning and development in which they have worked for over 20 years Both run successful consultancy and coaching businesses and work on many collaborative projects as colleagues and friends With backgrounds that span work in the public private and voluntary sectors Lois and Deborah share many professional interests and values and bring complementary experience to their work Deborah and Lois run many workshops and programs which include the development of influencing skills and together have developed the popular Beyond series of workshops which provide a unique forum for leaders to receive individual in depth feedback on
