Creativity And God A Challenge To Process Theology:

Creativity and God Robert C. Neville,1995-10-12 This book is a sympathetic critique of process theology with responses to the arguments addressed by leading thinkers *Reforming the Doctrine of God* F. LeRon Shults,2005-11 Linking traditional attributes of God with contemporary philosophy F LeRon Shults culminates with a reformed doctrine of God that revolves around themes of God s omniscient faithfulness omnipotent love and omnipresent hope Evangelism and the Openness of God Vaughn W. Baker,2012-12-18 Argues that a dynamic concept of God as articulated in open theism better serves the evangelistic mission of the church than does conventional theology Back Satan and the Problem of Evil Gregory A. Boyd,2025-08-04 Where does evil come from If there is a sovereign creator God as Christian faith holds is this God ultimately responsible for evil Does God s sovereignty mean that God causes each instance of sin and suffering How do Satan his demons and hell fit into God s providential oversight of all creation and history How does God interact with human intention and action If people act freely does God know in particular every human decision before the choice is made In this important book Gregory A Boyd mounts a thorough response to these ages old questions which remain both crucial and contentious both practical and complex In this work Boyd defends his scripturally grounded trinitarian warfare theodicy presented in *God at War* with rigorous philosophical reflection and insights from human experience and scientific discovery Critiquing the classical Calvinist solution to the problem of evil he advocates an alternative understanding of the sovereignty of the trinitarian God and of the reality of Satan that sheds light on our fallen human condition While all may not agree with Boyd s conclusions *Satan and the Problem of Evil* promises to advance the church s discussion of these critical issues

Theology in Global Context Amos Yong,Peter G. Heltzel,2016-10-06 Robert Cummings Neville has been a consistent advocate for the necessity of global theology Early in his career he realized that the philosophical framework of the West alone was inadequate for a truly global theology Since then he has sought to develop theology creatively and responsibly within the world context The original essays in this volume written in his honour by fellow theologians participate in and model the kind of dialogical global theology embodied in Neville s work **The Bloomsbury Encyclopedia of Philosophers in America** John R. Shook,2016-02-11 For scholars working on almost any aspect of American thought The Bloomsbury Encyclopedia to Philosophers in America presents an indispensable reference work Selecting over 700 figures from the Dictionary of Early American Philosophers and the Dictionary of Modern American Philosophers this condensed edition includes key contributors to philosophical thought From 1600 to the present day entries cover psychology pedagogy sociology anthropology education theology and political science before these disciplines came to be considered distinct from philosophy Clear and accessible each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading Featuring a new preface by the editor and a comprehensive introduction The Bloomsbury Encyclopedia to Philosophers in America includes 30 new entries on twenty

first century thinkers including Martha Nussbaum and Patricia Churchland With in depth overviews of Waldo Emerson Margaret Fuller Noah Porter Frederick Rauch Benjamin Franklin Thomas Paine and Thomas Jefferson this is an invaluable one stop research volume to understanding leading figures in American thought and the development of American intellectual history

The Evolving God in Jewish Process Theology William E. Kaufman,1997 Provides a systematic examination of process themes in Jewish theology After tracing process motifs in the writings of contemporary Jewish thinkers the text analyzes process theology as a form of postmodernism discussing the tensions between it and more orthodox theologies

God as Poet of the World Roland Faber,2008-10-17 Process theology has been a major theological innovation of the last hundred years and its influence on American theology has been pervasive But process thought is far from being simply an American phenomenon Throughout the last few decades some of the most exciting work in process theology has been undertaken in Asia and Europe Now that process theology is a truly international movement all theologians need to reconsider this school of thought In this book world recognized expert in process thought Roland Faber presents a systematic exploration of process theology s roots and development its chief concerns and concepts and its opportunities for new contributions to today s theological scene This book is a superb resource for those who want to know more about this important theological movement

Beyond Theism Theodore W. Jennings,1985 What do we mean when we talk about God Does this term actually refer to anything in our experience This book opens up significant new approaches to one of the most important problems confronting theology and the philosophy of religion namely the problem of God language Current philosophical concerns over language have intensified the difficulty of talking about God The necessity of formally proving the meaningfulness of statements about God has led to theological dead ends on the one hand and a retreat to mysticism or irrationality on the other This book moves the discussion of God language to a new plane arguing that God language cannot be understood within a traditional theistic framework Instead a grammar of God language must be identified and in doing this Jennings reaches a fresh view of language one that is applicable to all religions and all human experience the religious as well as the secular

Dynamic Catholicism Thomas Bokenkotter,1986-08-05 Formerly Essential Catholicism this book has been retitled to reflect how through the centuries the Roman Catholic Church has evolved in many aspects of its teaching The new title also reflects how theologians today grapple with ever new ways of understanding many facets of Catholic belief and practice Who is Jesus Or Mary Who are the saints How are theologians trying to understand such topics as marriage divorce homosexuality What of social justice The relationship of conscience to

papal authority Thomas Bokenkotter masterfully shows how these questions and many others have been answered in different ways through the centuries He also translates the latest theological writings on these topics into plain language My aim he says has been to sift through and select what seems most helpful and enlightening for those who seek an understanding of the essentials of Catholicism today Here then is a book for all Catholics those assured in their belief and those questioning it **Ad Veritatem** ,2006
