Creatures In Crisis:

Creatures in Crisis Chris Kratt, Martin Kratt, 1997 Discusses a number of species that are extinct endangered or vulnerable such as the dodo the African wild dog and the giant river otter **Animal Crisis** Alice Crary, Lori Gruen, 2022-05-20 Leading philosophers Alice Crary and Lori Gruen offer a searing and desperately needed response to systems of thought and action that are failing animals and ultimately humans too In the wake of global pandemics mass extinctions habitat destruction and catastrophic climate change they issue a clarion call to address the intertwined problems we face arguing that we must radically reimagine our relationships with other animals In stark contrast to traditional theories in animal ethics which abstract from social mechanisms harmful to human beings *Animal Crisis* makes the case that there can be no animal liberation without human emancipation Borrowing from critical theories such as ecofeminism Crary and Gruen present a critical animal theory for understanding and combating the structural forces that enable the diminishment of so many to the advantage of a few With seven case studies of complex human animal relations they make an urgent plea to dismantle the human supremacism that is devastating animal lives and hurtling us toward ecocide

Animals, 1901 **The Last Elephants** Colin Bell, Don Pinnock, 2019-03-01 The Africa wide Great Elephant Census of 2016 produced shocking findings a decimated elephant population whose numbers were continuing to plummet Elephants are killed on average every 15 20 minutes a situation that will see the final demise of these intelligent extraordinary animals in less than three decades They are a species in crisis This magnificent book offers chapters written by the most prominent people in the realm of conservation and wildlife among them researchers conservationists film makers criminologists TV personalities and journalists Photographs have been selected from among Africa's best wildlife photographers and the Foreword is provided by Prince William It is hoped this book will create awareness of the devastating loss of elephant lives in Africa and stem the tide of poaching and hunting that it will inspire the delegates to CITES to make informed decisions to ensure that all loopholes in the ivory trade are closed and that countries receiving and using ivory both legal and poached primarily China Vietnam Laos and Japan ban and strenuously police its trade and use within their borders actively pursuing and arresting syndicate leaders driving the cruel poaching tsunami This book is also a tribute to the many people who work for the welfare of elephants particularly those who risk their lives for wildlife each day often for little or no pay in particular the field rangers and the anti poaching teams and to the many communities around Africa that have elected to work with elephants and not against them *The Last Elephants* is the title prophetic We hope not but the signs are worrying
