Hall,1995 **Filipino Women** ,1997 *Profit Sharing Trends* ,1959 **Developing Professional Memory** Paul Tarpey,2018-09-11 In *Developing Professional Memory* the author examines narratives from progressive and radical London based English teachers who began their careers between 1965 and 1975 English teaching in this period which the author defines as a cauldron of competing and contested currents is often portrayed negatively in dominant discourses around the subject The teachers narratives however provide a much more nuanced and positive story By recovering and documenting the collective Professional Memory of English teachers in a particular conjuncture this volume offers a compelling practitioner account of events and developments and proves that learning from Professional Memory has transformative potential The author argues that by critically confronting narratives practices and existing conjunctural circumstances current practitioners might develop greater agency in debates around their professional roles and responsibilities

Research on Teacher Thinking James Calderhead,Christopher Day,Pam Denicolo,2012 This is a companion volume to the editors *Insights into Teachers Thinking and Practice* Falmer Press 1999 and seeks to carry the discussion on further illustrating that there is a continuing intensity of thought activity and debate on how to conceptualise research on teacher thinking and thus generate knowledge for further understanding and action The ethical questions on undertaking research on the inner lives of teachers remain unresolved The international team present chapters which investigate the relationship between the researcher and the researched and the relevance and role of research in teacher development The papers are not presented as best practice for such definitions would be inevitably value laden Rather they are indications and anticipations of key areas for the development of understanding of teachers thinking and actions in the 1990s
