Kalyvas,2019-03-14 The Oxford Handbook of Terrorism systematically integrates the substantial body of scholarship on terrorism and counterterrorism before and after 9 11 In doing so it introduces scholars and practitioners to state of the art approaches methods and issues in studying and teaching these vital phenomena This Handbook goes further than most existing collections by giving structure and direction to the fast growing but somewhat disjointed field of terrorism studies The volume locates terrorism within the wider spectrum of political violence instead of engaging in the widespread tendency towards treating terrorism as an exceptional act Moreover the volume makes a case for studying terrorism within its socio historical context Finally the volume addresses the critique that the study of terrorism suffers from lack of theory by reviewing and extending the theoretical insights contributed by several fields including political science political economy history sociology anthropology criminology law geography and psychology In doing so the volume showcases the analytical advancements and reflects on the challenges that remain since the emergence of the field in the early 1970s **Healthcare Corruption** Graham Brooks,2024-05-22 This book offers a broad international analysis of healthcare corruption drawing upon criminology sociology psychology law political and behavioural economics and nudge theory It engages with the existing key debates on how to define healthcare corruption and the measurement of it but builds on this and offers new analysis of these issues in the private healthcare sector too Furthermore it moves beyond the analysis of funds lost to healthcare and includes the impact and costs of healthcare corruption on victims and family members of victims and the CJS It also uniquely considers that the healthcare sector victimizes patients and its own employees with the healthcare sector as part of a carceral state to help highlight how different disciplines can contribute to our understanding in reducing healthcare corruption Handbook of Political Anthropology Harald Wydra,Bjørn Thomassen,2018-11-30 This Handbook engages the reader in the major debates approaches methodologies and explanatory frames within political anthropology Examining the

shifting borders of a moving field of enquiry it illustrates disciplinary paradigm shifts the role of humans in political structures ethnographies of the political and global processes Reflecting the variety of directions that surround political anthropology today this volume will be essential reading to understanding the interactions of humans within political frames in a globalising world *The Harms of Hate for Gypsies and Travellers* Zoë James, 2020-09-24 Gypsies and Travellers have often been overlooked as victims of hate crime and discrimination This book redresses that exclusion by shining a light on the harms of hate experienced by Gypsies and Travellers in the UK In doing so James explores how hate permeates all aspects of their lives and identifies the hate crimes incidents and speech that they are subject to It goes on to explore how hate against Gypsies and Travellers occurs as discrimination social exclusion and criminalisation and how that hate is embedded within the language and practice of neoliberal capitalism This book provides new insights to critical criminology and ways of understanding hate by using the critical hate studies perspective to gain a full appreciation of the harms of hate As a consequence of this the book is able to do justice to Gypsies and Travellers experiences of hate by extrapolating how harms manifest and the impact they have on Gypsies and Travellers social and personal identities The book explains and acknowledges how hate harms imbue Gypsies and Travellers daily lives including common events of serious abuse and assault regular ill treatment in provision of services and everyday micro aggressions It argues hate experienced by Gypsies and Travellers can only be fully recognised through an analysis of the neoliberal capitalist context within which it occurs and the harmful subjective experience it engenders The author's expertise in this area having carried out research with Gypsies and Travellers for 25 years underpins the book with excellent empirical knowledge and research informed discussion

Policing in Emerging Democracies Gorazd Meško, 2007 *Male Crime and Deviance* Ronald Barri Flowers, 2003 al behavior are examined as well as racial and ethnic differences in male crime The arrest patterns and the characteristics of male inmates in adult and juvenile correctional facilities are also explored Part 3 focuses on male crime of violence chapters are devoted to examinations of homicide forcible rape domestic violence stalking hate crimes workplace violence and terrorism Part 4 explores property offenses such as robbery motor vehicle theft and carjacking Part 5 examines male sex offenses and includes analyses of incest child sexual abuse prostitution related crimes and explores the relationship between pornography and male violence Part 6 looks at juvenile male crime and delinquency with a focus on youth gangs and school crime and violence Part 7 outlines Federal legislation designed to combat criminal and violent behavior including the Violent Crime Control and Law Enforcement Act of 1994 the Violence Against Women Act of 2000 and the Child Abuse Preventiinality and deviant behavior Mafia Politics Marco Santoro, 2021-11-30 This ground breaking book offers a deep and original analysis of the Mafia in particular Cosa Nostra as a distinct form of politics Marco Santoro breaks with criminal and economic approaches which see the Mafia as an industry of private protection and rationally calculating wealth accumulation Instead he argues that it represents an alternative way of organizing political relations the exercise of power

and the struggle for prestige Nor is this a distortion or failure of the modern Western state based on the rule of law the Mafia is best understood as an older alternative tradition of politics a distinctly Southern institutional arrangement of social life focused on personal ties and obligations Today the Mafia still thrives among subaltern classes and in regions that the modern state has not yet incorporated as a conservative counter politics of prestige Pivotal to understanding this world is a cultural sociology of the Mafia offering the tools and concepts necessary to penetrate the symbolism and structures of Mafia life Blending diverse theoretical strands with folk sources and the voices of Mafiosi themselves Santoro develops a political theory of the Mafia shedding new light on this captivating global and remarkably resilient phenomenon Current Publications in Legal and Related Fields ,2003 *Guide to Reprints* ,2009 *Social Censure and Critical Criminology* Anthony Amatrudo,2017-08-01 This edited collection focuses on the sociology of social censure the sociological term advocated by Colin Sumner in his seminal writing of the 1980s and 1990s Social censure has become increasingly important in contemporary criminological writing This can especially be seen in recent writing on gender and race and also in terms of the way that the state s relationship to crime is now understood This collection addresses a deficit in the published literature and both revisits themes from an earlier era and looks forward to the development of new writing that develops Sumner s seminal work on social censure The contributors are drawn from leading scholars from across the Social Sciences and Law and they address a wide range of issues such as race youth justice policing welfare and violence The resulting volume is an interdisciplinary text which will be of special interest to scholars and students of Critical Criminology and Socio Legal Studies as well as those interested in the operation of the criminal justice system and criminological theory **The British National Bibliography** Arthur James Wells,2009 **Guide to Reprints** K G Saur Publishing,K. G. Saur Verlag GmbH & Company,Walter de Gruyter GmbH,2005-10 The established reference work Guide to Reprints has been radically reworked for this edition Bibliographical data was substantially increased where information was obtainable In addition the user friendliness of Guide to Reprints was raised to the high level of other K G Saur directories through author title cross references a subject volume a person index and a publisher index In this edition the directory lists more than 60 000 titles from more than 350 publishers **Childhood** Chris Jenks,2005 Childhood is an extremely complex and highly contested concept It refers to a life phase as well as to the age group defined as children but is also a cultural construction part of the social and economic structure of communities The key scholarship collected introduced and reprinted in these volumes reflects this complexity and introduces the reader to the wide variety of interpretations that have been and continue to be placed on it It might be suggested that the push or initiative in theorizing childhood has derived from advances within sociology and anthropology However the future provides potential for interdisciplinary study which this collection also reflects The contemporary study of childhood must comprise a conjoining of disciplines sociology anthropology psychology social geography history philosophy and socio legal theory all have something to add to the field and are represented within

the collection *New Social Connections* Judith Burnett, Syd Jeffers, Graham Thomas, 2010-04-09 *New Social Connections* offers a fresh approach to new explorations of the reconfigurations of sociological thought and questions the subjects and objects of sociological enquiry The collection provides a mix of literature review original theory and makes use of reflexive and innovative autobiographical material Issues examined include the role of history in sociology postcolonialism public sociology the future of sociological theory the turn to nature and sociological careers Book Jacket *Crime and Social Justice* ,1974 **Sociological Abstracts** Leo P.
