Eurasia Svante Cornell,Michael Jonsson,2014-01-11 In the years after the collapse of the Soviet Union and its zone of
influence few insurgent groups had the resources necessary to confront regular armies At the same time state sponsored
financial support for insurgencies dramatically decreased The pressing need to raise funds for war and the weakness of law
enforcement in conflict zones create fertile conditions for organized crime indeed there is a mounting body of evidence
correlating armed conflict and illicit economy though the nature of this link and its impact on regional politics has not been
well understood Conflict Crime and the State in Postcommunist Eurasia explores the relationship between ideologically
motivated insurgents profit motivated crime and state institutions in eight conflict zones Through detailed case studies the
contributors demonstrate how the operations and incentives of insurgents may emerge and shift over time for some armed
groups crime can become an end in itself beyond a financial means but not all armed groups equally adapt to illicit commerce
They also show how the criminalization of state institutions is a lingering concerns even after armed conflicts end Conflict
Crime and the State in Postcommunist Eurasia places the case studies along a continuum of political and criminal behavior
examining the factors that motivate insurgents to seek out criminal alliance how this connection affects the dynamics of
conflict and what risks remain during postconflict transition These findings will provide a better understanding of the types
of challenges likely to confront peacekeeping and statebuilding endeavors in other parts of the world Contributors Jana
