of Criminology in about 1968 in an anteroom at New York University there were about 25 30 people in attendance mostly sociologists with a few lawyers thrown in That Society today has over 3 000 members mostly now drawn from criminology which has established its own clear identity but augmented by a wide variety of disciplines that include statisticians economists demographers and even a few engineers This Handbook provides a remarkable testimony to the growth of that eld Following the maxim that if you can t measure it you can t understand it we have seen the early dissatisfaction with the UCR replaced by a wide variety of new approaches to measuring crime victimization and offending
