Criminal Competency On Trial The Case Of Colin Ferguson:

Criminal Competency on Trial Mark C. Bardwell, Bruce A. Arrigo, 2002 Criminal Competency on Trial examines the legal standards by which one can stand trial and the psychological instruments by which one's mental health status is assessed. Acknowledging that determinations of trial fitness represent the most significant mental health inquiry pursued in the system of criminal law today, this book carefully explains and thoroughly reviews the legal and psychological limits of competency to stand trial. CST To highlight these limits, authors Bardwell and Arrigo systematically investigate the controversial and high profile case of Colin Ferguson. Mr. Ferguson was identified as the New York City railway killer who, following a competency finding, elected to represent himself and was found guilty of all criminal charges. The text proposes a series of clear, practical, and concise justice policy reforms designed to improve how the CST doctrine is understood and employed by lawyers, judges, psychologists, and other forensic mental health professionals. The book concludes by demonstrating where and how these policy recommendations would substantially change the application of the CST doctrine, especially in the case of Colin Ferguson and with other high stakes defendants, including that of Theodore Kaczynski, aka the 'unabomber'. *Forensic Psychology Reconsidered* David Polizzi, Matthew R. Draper, 2015-10-30 Forensic psychology is where psychology meets the criminal justice system. An understanding of the intersection of criminal law and psychological issues relating to criminal responsibility is critical for criminal justice students. This accessible text focuses on the criminal law implications of forensic psychology as it relates to topics such as competency to stand trial, state of mind at the time of the crime, suicide by cop, and involuntary psychiatric medication administered in custody. Unlike more traditional texts on this topic, which are primarily concerned with the clinical practice of forensic psychology, this book focuses on critical thinking as it relates to these topics. Each chapter presents a critical analysis of the topic under study, going beyond merely identifying the legal parameters of criminal responsibility to explore the ethical, philosophical, and theoretical foundations of that concept.

Encyclopedia of Criminology J. Mitchell Miller, Richard A. Wright, 2013-12-17 This three-volume work offers a comprehensive review of the pivotal concepts, measures, theories, and practices that comprise criminology and criminal justice. The three-volume Encyclopedia of Criminology presents the latest research as well as the traditional topics which reflect the field's multidisciplinary nature in a single authoritative reference work. The pivotal concepts, measures, theories, and practices of the field are addressed with an emphasis on comparative criminology and criminal justice. While the primary focus of the work is on American criminology and contemporary criminal justice in the United States, extensive global coverage of other nations' justice systems is included, and the increasing

international nature of crime is explored thoroughly Providing the most up to date scholarship in addition to the traditional theories on criminology the Encyclopedia of Criminology is the essential one stop reference for students and scholars alike to explore the broad expanse of this multidisciplinary field

Irm Introduction to Criminal Justice Siegel,2004-03 Transforming Corrections David Polizzi,Michael Braswell,2009 This book is part of the Criminal Justice and Psychology Series Transforming Corrections offers an alternative perspective not easily found in the existing literature concerning the way in which individuals in the criminal justice system are understood and treated by those responsible for their care Intended as a supplementary text this collection will help to enhance the current conversation that is ongoing in the field of rehabilitative corrections The wide reaching focus of this collection is intended to provide a variety of alternative perspectives related to issues of theory correctional practice and offender treatment As such Transforming Corrections could be adopted in introductory courses in criminology and criminal justice as well as graduate courses more specifically focused on issues related to offender treatment and correctional administration A book subtitled Humanistic Approaches to Corrections and Offender Treatment manifestly does not mirror prevailing practices in corrections nor reflect the dominant ethos of the times Such a book instead gives some of us heady sustenance and support in the goals that we secretly aspire to it gives us a sense of what might be achieved in the distant future and what might already have been accomplished The book is an invitation for us to hang in there and persevere If you are not quite burned out have not given up and are still fighting the odds the message of these chapters is you are not nearly as alone as you sometimes feel out there on your limb The reassuring fact is that there are enclaves of humanistic activity in correctional settings and as these experiments demonstrate their effectiveness they are bound to ensure the long term survival of the approach Hans Toch University at Albany SUNY from the Preface It is regrettable that a collection such as this is necessary in order to encourage those who wish to treat prisoners as human beings For this reason alone the book deserves a place in every library Summing Up Recommended Upper division undergraduates and above CHOICE Magazine **Michigan Law Review** ,2002 **Law Books Published** ,2002 *Index to Legal Periodicals & Books* ,2003 **Suffolk University Journal of Trial & Appellate Advocacy** ,1999 **Current Law Index** ,1996
