Moore, 2010 In print for the first time in over ten years Act and Crime provides a unified account of the theory of action presupposed by both Anglo American criminal law and the morality that underlies it The book defends the view that human actions are always volitionally caused bodily movements and nothing else The theory is used to illuminate three major problems in the drafting and the interpretation of criminal codes 1 what the voluntary act requirement both does and should require 2 what complex descriptions of actions prohibited by criminal codes both do and should require in addition to the

doing of a voluntary act and 3 when two actions are the same for purposes of assessing whether multiple prosecutions and multiple punishments are warranted The book both contributes to the development of a coherent theory of action in philosophy and it provides both legislators and judges and the lawyers who argue to both a grounding in three of the most basic elements of criminal liability *Law in Action* Carl Peter Stover,1977 **Criminal Justice in Action** Larry K. Law Books in Action Angela Fernandez,Markus Dubber,2012-04-02 *Law Books in Action* Essays on the Anglo American Legal Treatise explores the history of the legal treatise in the common law world Rather than looking at treatises as shortcuts from law in books to law in action the essays in this collection ask what treatises can tell us about what troubled legal professionals at a given time what motivated them to write what they did and what they hoped to achieve This book then is the first study of the legal treatise as a law book in action an active text produced by individuals with ideas about what they wanted the law to be not a mere stepping stone to codes and other forms of legal writing but a multifaceted genre of legal literature in its own right practical and fanciful dogmatic and ornamental in turn This book will be of interest to legal scholars lawyers and judges as well as to anyone else with a scholarly interest in law in general and legal history in particular

Legal Realism to Law in Action William Clune,2021-12-16 This is a book of papers and interviews about innovative law school courses developed by faculty of the Wisconsin Law School from 1950 to 1970 that forged a path from legal realism to law and social science These courses took a law in action approach to the study of law which became a signature feature of the school s tradition from that time to the present day The Legal Realists of the 1920s and 30s taught that the law that mattered was the law in action as applied by ordinary officials and experienced by ordinary people But they mostly failed to get their program adopted as part of professional education alongside the study of appellate cases Only at Wisconsin thanks to a cluster of great scholar teachers in Willard Hurst Frank Remington Herman Goldstein Stewart Macaulay Bill Whitford and their collaborators has the Realist vision been fully and splendidly realized in law teaching This is the story of that thrilling experiment Robert W Gordon Professor of Law Emeritus Stanford University Chancellor Kent Professor Emeritus of

Law and Legal History Yale Law School This book is a must read for anyone interested in the history of the law and society movement and the unique role that the University of Wisconsin Law School has played in that tradition In a series of essays by and interviews of current and former Wisconsin law teachers the creativity of Wisconsin s challenge to the traditional legal academy comes alive Lauren Edelman Agnes Roddy Robb Professor of Law and Professor of Sociology University of California Berkeley In a time when an increasing number of law schools characterize themselves as bastions of law in action this volume provides a bracing reminder of a more precise vision That vision was rooted in the legal realist tradition during an earlier golden age of sociolegal thought at the University of Wisconsin Law School In this important book we hear vivid accounts of the innovative law teaching during that time which took realist discoveries seriously in Contracts Legal Process Legal History and Criminal Law Elizabeth Mertz Research Professor American Bar Foundation John and Rylla Bosshard Professor Emerita UW Madison Law School
