Confronting Failures of Justice Paul H. Robinson, Jeffrey Seaman, Muhammad Sarahne, 2024-08-06 Most murderers and rapists escape justice a horrifying fact that has gone largely unexamined until now This groundbreaking book tours nearly the entire criminal justice system examining the rules and practices that regularly produce failures of justice in serious criminal cases Each chapter outlines the nature and extent of justice failures in present practice describing the interests at stake and providing real world examples Finally each chapter reviews proposed and implemented reforms that could balance the competing interests in a less justice frustrating manner and recommends one sometimes completely original reform to improve the system A systematic study of justice failures is long overdue As this book discusses regular failures of justice in serious criminal cases undermine deterrence and the criminal justice system s credibility with the community as a moral authority The damage caused by unpunished crime is immense and even worse falls primarily on vulnerable minority communities Now for the first time students researchers policymakers and citizens have a resource that explains why justice failures occur and what can be done about them Confronting Failures of Justice is accessible for use by college freshman through graduate students and law students and is designed to be main text for a course on justice failures but it could be used in conjunction with other texts in a broad range of courses touching on criminal justice It presents arguments in a highly organized fashion and provides dozens of case studies many with photographs to gain student interest and to bring the academic discussions to life *Independence of the Judiciary*, **Debates on the Federal Judiciary**, 2013 *California. Sunstein, 2021-05-18 NEW YORK TIMES BESTSELLER From the Nobel Prize winning author of *Thinking Fast and Slow* and the coauthor of *Nudge* a revolutionary exploration of why people make bad judgments and how to make better ones a tour de force New York Times Imagine that two doctors in the same city give different diagnoses to identical patients or that two judges in the same courthouse give markedly different sentences to people who have committed the same crime Suppose that different interviewers at the same firm make different decisions about indistinguishable job applicants or that when a company is handling customer complaints the resolution depends on who happens to answer the phone Now imagine that the same doctor the same judge the same interviewer or the same customer service agent makes different decisions depending on whether it is morning or afternoon or Monday rather than Wednesday These are examples of noise variability

in judgments that should be identical In Noise Daniel Kahneman Olivier Sibony and Cass R Sunstein show the detrimental effects of noise in many fields including medicine law economic forecasting forensic science bail child protection strategy performance reviews and personnel selection Wherever there is judgment there is noise Yet most of the time individuals and organizations alike are unaware of it They neglect noise With a few simple remedies people can reduce both noise and bias and so make far better decisions Packed with original ideas and offering the same kinds of research based insights that made Thinking Fast and Slow and Nudge groundbreaking New York Times bestsellers Noise explains how and why humans are so susceptible to noise in judgment and what we can do about it United States of America V.
