**Case of a Lifetime** Abbe Smith, 2008-07-22 A captivating emotionally intense investigation of the complicated relationship between truth and the justice system Kirkus Reviews starred review A recent study estimates that thousands of innocent people are wrongfully imprisoned each year in the United States Some are exonerated through DNA evidence but many more languish in prison because their convictions were based on faulty eyewitness accounts and no DNA is available In Case of a Lifetime prominent criminal lawyer and law professor Abbe Smith weaves together real life cases to show what it is like to champion the rights of the accused Smith describes the moral and ethical dilemmas of representing the guilty and the weighty burden of fighting for the innocent including the victorious story of how she helped free a woman wrongly imprisoned for nearly three decades This is an extraordinary profoundly moving book I know of no other book that says as much about a defense lawyer's motivations self doubt frustrations I finished it with tears in my eyes Pulitzer Prize winning author Anthony Lewis Intelligent subtle and honest I couldn't put the book down It is a testament to what can happen when one person reaches out to another in need Sister Helen Prejean author of Dead Man Walking

**Principles of International Criminal Law** Gerhard Werle, Florian Jessberger, 2014 Principles of International Criminal Law is one of the leading textbooks in the field This third edition builds on the highly successful work of the previous editions setting out the general principles governing international crimes as well as the fundamentals of both substantive and procedural international criminal law

General Defences in Criminal Law Alan Reed, Michael Bohlander, 2016-04-15 The law relating to general defences is one of the most important areas in the criminal law yet the current state of the law in the United Kingdom reveals significant problems in the adoption of a consistent approach to their doctrinal and theoretical underpinnings as exemplified by a number of recent developments in legislation and case law A coherent and joined up approach is still missing This volume provides an analysis of the main contentious areas in British law and proposes ways forward for reform The collection includes contributions from leading experts across various jurisdictions Part I examines the law in the United Kingdom with specialist contributions on Irish and Scottish law Part II consists of contributions by authors from a number of foreign jurisdictions all written to a common research grid for maximum comparability which provide a wider background of how other legal systems treat problems relating to general defences in the context of the criminal law and which may serve as points of reference for domestic law reform
