Confronting Failures of Justice Paul H. Robinson,Jeffrey Seaman,Muhammad Sarahne,2024-08-06 Most murderers and rapists escape justice a horrifying fact that has gone largely unexamined until now This groundbreaking book tours nearly the entire criminal justice system examining the rules and practices that regularly produce failures of justice in serious criminal cases Each chapter outlines the nature and extent of justice failures in present practice describing the interests at stake and providing real world examples Finally each chapter reviews proposed and implemented reforms that could balance the competing interests in a less justice frustrating manner and recommends one sometimes completely original reform to improve the system A systematic study of justice failures is long overdue As this book discusses regular failures of justice in serious criminal cases undermine deterrence and the criminal justice system s credibility with the community as a moral authority The damage caused by unpunished crime is immense and even worse falls primarily on vulnerable minority communities Now for the first time students researchers policymakers and citizens have a resource that explains why justice failures occur and what can be done about them Confronting Failures of Justice is accessible for use by college freshman through graduate students and law students and is designed to be main text for a course on justice failures but it could be used in conjunction with other texts in a broad range of courses touching on criminal justice It presents arguments in a highly organized fashion and provides dozens of case studies many with photographs to gain student interest and to bring the academic discussions to life Debates on the Federal Judiciary ,2013 **Independence of the Judiciary** , California. Court of Appeal (1st Appellate District). Records and Briefs California (State)., Noise Daniel Kahneman,Olivier Sibony,Cass R. Sunstein,2021-05-18 NEW YORK TIMES BESTSELLER From the Nobel Prize winning author of Thinking Fast and Slow and the coauthor of Nudge a revolutionary exploration of why people make bad judgments and how to make better ones a tour de force New York Times Imagine that two doctors in the same city give different diagnoses to identical patients or that two judges in the same courthouse give markedly different sentences to people who have committed the same crime Suppose that different interviewers at the same firm make different decisions about indistinguishable job applicants or that when a company is handling customer complaints the resolution depends on who happens to answer the phone Now imagine that the same doctor the same judge the same interviewer or the same customer service agent makes different decisions depending on whether it is morning or afternoon or Monday rather than Wednesday

These are examples of noise variability in judgments that should be identical In Noise Daniel Kahneman Olivier Sibony and Cass R Sunstein show the detrimental effects of noise in many fields including medicine law economic forecasting forensic science bail child protection strategy performance reviews and personnel selection Wherever there is judgment there is noise Yet most of the time individuals and organizations alike are unaware of it They neglect noise With a few simple remedies people can reduce both noise and bias and so make far better decisions Packed with original ideas and offering the same kinds of research based insights that made *Thinking Fast and Slow* and *Nudge* groundbreaking New York Times bestsellers Noise explains how and why humans are so susceptible to noise in judgment and what we can do about it

Williams ,1994 The American Court System Marilyn McShane,2020-10-28 Depending on whom one talks to today s criminal courts are either the savior or the demon of our social order While everyone seems to have an answer about what needs to be done the solutions are neither simple nor within our current allocation of resources Media hype and political posturing emotionally dilute the reality of what motivates crime and what constitutes effective punishment The essays and research in this anthology give the reader a realistic view of complex problems affecting our juvenile and adult courts and consequently the rest of the criminal justice system Topics include sentencing disparity sentencing reform and wrongful convictions Some traditionally controversial issues are covered such as the insanity defense and the death penalty as well as the more recent three strikes and you re out movement and mandatory minimums This series will be of great utility to students scholars and others with interests in the literature of criminal justice and criminology
