Crinan Canal:

The Crinan Canal Marian Pallister, 2017-07-05 Known as Britain's most beautiful shortcut the Crinan Canal runs from Ardrishaig on Loch Fyne nine miles across the Kintyre peninsula to the west coast of Scotland. Designed by John Rennie after initial survey work by James Watt in 1771 the canal was opened in 1801 with further improvements made by Thomas Telford in the second decade of the nineteenth century. The canal was originally planned to save commercial ships having to make the long journey from the industrial region around Glasgow round the Mull of Kintyre to reach the west coast and Hebridean islands. By 1854 33 000 passengers 22 000 sheep and 2000 cattle had been transported along it. These days the canal is a popular route for leisure craft. In the book Marian Pallister tells the story of the canal from its origins to the present day discussing how it was built who built it how it changed life in the surrounding areas and how it has been used. Work on the Crinan Canal began in 1794 but the project was beset by financial and engineering problems and quickly had to be bailed out by the Government. After this uncertain start was overcome, however, and some structural difficulties were addressed, traffic levels gradually increased until in 1847 Queen Victoria travelled along the canal on her way to a holiday in the Highlands. Following her patronage, the canal became part of what tourist promoters billed as The Royal Route. The short but scenic canal has been popular with tourists ever since and as commercial traffic dwindled in the first half of the twentieth century, yachts and pleasure cruisers replaced the fishing boats and puffers. The route of the canal from Crinan to Ardrishaig is illustrated here in a picturesque collection of pictures that feature both canal life and some of the small communities that once lay alongside it. **Canals and Irrigation in Foreign Countries.** ...
