Guide, 1921 **The Green Agenda in American Politics** Robert J. Duffy, 2003 Organizations such as the Sierra Club and
 Friends of the Earth are familiar to anyone with an interest in environmental protection As activist groups they played by the
 same rules for years But in 1994 the rules changed With the Republican takeover of Congress environmental groups faced
 sweeping changes in federal policies that threatened the enforcement of environmental laws As these organizations
 intensified their efforts to meet these challenges they also altered their electoral strategies and political spending patterns
 This book traces those actions and shows what they mean for the future of environmentalism in the political arena While
 environmental advocacy groups have become bigger and better funded in recent years so have the corporate interests that
 compete with them for the attention of public and politicians The Green Agenda in American Politics offers a new look at
 environmental advocacy that focuses on contemporary lobbying electioneering and agenda setting in this new context
 Drawing on interviews with activists from a wide range of organizations Robert Duffy describes what environmental groups
 actually do when lobbying officials or the public He examines activity at both national and state levels to emphasize their
 growing use of websites email and action alert networks to conduct more sophisticated grassroots campaigns and he shows
 how they are devoting more funds to unregulated forms of spending such as independent expenditure issue advocacy
 advertising and public education campaigns Duffy also tracks emerging trends in interest group politics and provides an
 overview of activism through the early 1990s He then documents the emergence of more aggressive action after 1994 such
 as providing campaign services to candidates and mounting voter registration drives He also shows how state and local
 groups have begun to play more important roles in the wake of the rollback of federal environmental regulations Brimming
 with new insights into interest group lobbies in general and contemporary environmental groups in particular Duffy's book
 opens a new window on the influence of Big Money in the supposedly democratic electoral process **Media Spectrum**
