TikTok Algorithms 2025 Jordan Smith, 2022-05-05 TikTok is a highly creative platform and it definitely rewards those who often create and post It's ideal two to three times a day if you really want to gain popularity on TikTok you won't cut it once a week So in just two months I've gone from zero to 10K followers Sharn Rayment multimedia freelance producer You definitely have to embrace and commit to using TikTok to the fullest extent possible to create a content backlog for the for you page As for younger and older generations TikTok has democratized creativity and social media The app has the highest rate of follower engagement across 100 000 user profiles sampled in an Influencer Marketing Hub online research

project If marketers merely consider it as a dancing device and don't change their approach to include TikTok content they'll be really bitter in a couple of years Watching Instagram influencers repurpose Instagram content to TikTok at the start of lockdown shows the polished advertising on this site doesn't wash We always noticed when Instagram stories came up there was a trend for shorter more digestible content Yet TikTok proves that users can return for more when you get the form of content right According to official figures from TikTok its customers remain faithful and are starting to return to the app In fact 90% of users use the app several times a day Overall TikTok is asking us to reconsider the way our content is strategized I do hope these tips give you some ideas on how to handle TikTok and the way you prepare and create your content in general

Computational Social Science Wei Luo, Maria Ciurea, Santosh Kumar, 2021-02-18 Selected papers from the International Conference on New Computational Social Science focusing on the following five aspects Big data acquisition and analysis Integration of qualitative research and quantitative research Sociological Internet experiment research Application of ABM simulation method in Sociology Research Research and development of new social computing tools With the rapid development of information technology especially sweeping progress in the Internet of things cloud computing social networks social media and big data social computing as a data intensive science is an emerging field that leverages the capacity to collect and analyze data with an unprecedented breadth depth and scale It represents a new computing paradigm and an interdisciplinary field of research and application A broad comprehension of major topics involved in social computing is important for both scholars and practitioners This proceedings presents and discusses key concepts and analyzes the state of the art of the field The conference not only gave insights on social computing but also affords conduit for future research in the field Social computing has two distinct trends One is on the social science issues such as computational social science computational sociology social network analysis etc The other is on the use of computational techniques Finally some new challenges ahead are summarized including interdisciplinary cooperation and training big data sharing for scientific data mashups and privacy protect
