After an introductory chapter the book is divided into three sections. The first one discusses the underlying ideas and principles including user generated content the architecture of participation data on an epic scale harnessing the power of the crowd openness and the network effect and Web topology. The second section chronologically covers the main types of Web 2.0 services blogs wikis social networks media sharing sites social bookmarking and microblogging. Foreign Correspondence John Maxwell Hamilton, Regina G. Lawrence, 2013-09-13 Despite the importance of foreign news its history transformation and indeed its future have not been much studied. The scholarly community often calls attention to journalism's shortcomings covering the world yet the topic has not been systematically examined across countries or over time.
