*The Coaching Secret* Andrew Machon, 2013-10-03 Coaching as a field has mushroomed in recent years. Thousands of new coaches enter the field after only completing short and superficial training programmes. The problem with this is that coaching is not i something you can simply learn in a short programme ii a superficial practice. The books available on coaching tend to just reinforce this by going over coaching methodology without delving into what it really means to be a coach. *The Coaching Secret* remedies this by going beneath the surface looking at what it really means to be a coach and showing how you can go from simply understanding the basic coaching process to truly connecting and relating to the client and becoming a master coach. The author brings over 20 years of coaching practice in big corporations to help you move beyond the novice superficial coach to becoming an expert master coach. He brings together experience, theory, case studies and lots of interactive work to essentially coach the coach and help them achieve a superior coaching level. Key reader outcomes: Practical assistance to become a better coach moving from novice to expert to master. Increased confidence in your personal coaching competence. Greater clarity to the value of the coaching relationship and how we coach. New perspectives on coaching methods. To answer for yourself some of the crucial questions of the coach including: Who is the coach? How do you coach? And why do you coach? To deepen your understanding of coaching and to demystify the inner process through which we develop our competency and practice. To awaken the coach to discover new ways of seeing, thinking, sensing, resolving and relating. To progress the profession in offering a new vision of coaching that recognises and evolves the role of the coach.

**The Creative Eye** Heather Spears, 2013-03-26 In this book, drawing instructor, poet and working artist Heather Spears explores the artist's vision and asks fundamental questions about how and why art is made. Thoughtful, provocative and filled with hands-on information, *The Creative Eye* is a fascinating user's guide to the sources of creativity. Is there at last an understandable neurological explanation for bad drawing? In the light of new research about the visual brain, *The Creative Eye* explains the preconceptions, creative blocking and habitual dysfunction artists struggle with and offers real practical solutions to overcoming and even exploiting them. Now fully illustrated throughout from author's web site.

*Appreciative Healthcare Practice: A guide to compassionate, person-centred care* Dr Gwilym Wyn Roberts, Dr Andrew Machon, 2015-07-08 Written by a leading healthcare academic and an accredited international business coach, this book takes a new approach to one of the most crucial issues in healthcare: how to care for patients appreciatively, responsively and compassionately. In the light of the findings of the Francis Report 2013 and at a time when healthcare services are under enormous pressure, there is a clear and urgent need for such a book. Despite the challenges of ill health, the authors demonstrate that the opportunity is there for any healthcare practitioner to draw out what the patient needs and desires in line with the patient's own values, purposes and beliefs. This approach seeks to alleviate suffering and allows the patient to be more empowered and motivated to change, discovering choice and possibility in times of adversity. In this way, the practitioner

can help the patient increase their own resilience and resourcefulness At the same time the practitioner discovers their own ability to self care and self manage Aimed at healthcare students and practitioners at all levels Appreciative Healthcare Practice will provide a valuable and supportive learning resource for a wide range of individuals involved in caring Contents include Introduction Carers stories Compassionate and dignified care Professionalism on becoming a professional Applying appreciative inquiry in practice and education Creativity and care Applying the three eye model to healthcare Mindful healthcare practice The appreciative care worker and coach      **Screen World** ,2000      **Works** Lewis Morris,1907      *The poor artist; or, Seven eye-sights and one object [by R.H.
