A Nurse's Life in War and Peace Eleanor Constance Laurence, 1912 PREFACE The charm of these letters it will at once be found depends upon their simplicity their artlessness their obvious candour They present a plain untinted account of a nurse's career of the difficulties she has to face and the problems she has to solve Those who wish to know something of a nurse's life and times will find in this writing a convincing narrative unemotional and matter of fact This is no small merit since the record of nursing experiences is apt to be blurred by exaggeration or made nauseous by sickly romance There is pathos enough in the sick room and in the presence of death but those who come in touch with it would do better to hush the knowledge in their hearts rather than to proclaim it on the house tops Apart from this the world must be a little weary of the astute sick child who lisps melodrama into the ear of the kind nurse as well as of the bizarre aphorisms of the dying tramp
