Crime In The Community:

Crime and the Community Frank Tannenbaum, 1938 *Peacemaking Circles* Kay Pranis, Barry Stuart, Mark Wedge, 2013 **Neighborhoods and Crime** Robert J. Bursik Jr., Harold G. Grasmick, Bursik, Grasmick, 1999-12-31 This book is an excellent resource in examining the influence that community control can have on crime *Community and the Problem of Crime* Karen Evans, 2023-08-11 This book offers a useful theoretical overview of key approaches to the subject of crime and community and considers the ways in which these have been applied in more practical settings Written by an expert in the field and drawing on a range of international case studies from Europe North America Australia and Asia this book explores both why and how crime and community have been linked and the implications of their relationship within criminology and crime prevention policy Topics covered in the book include the different crime prevention paradigms which have been utilized in the fight against crime the turn to community in crime prevention policy which took place during the 1980s in the UK and US and its subsequent development the theoretical and ideological underpinnings to crime prevention work in and with different communities the significance and impact of fear of crime on crime prevention policy different institutional responses to working with community in crime prevention and community safety the ways in which the experiences of the UK and US have been translated into the European context a comparison between traditional western responses to the growing interest in restorative and community based approaches in other regions The new edition has been fully revised and updated to include discussion of the rise of populist politics and the centrality of crime and disorder as a divisive element used in populist political rhetoric the politics of austerity and the management of crises economic environmental and COVID 19 and the subsequent lockdowns the impact of Black Lives Matter MeToo and Extinction Rebellion the significance of social media and virtual community the further erosion of civil liberties and the right to protest and racialized US policing practices and police related deaths This book offers essential reading for students taking courses on crime and community crime prevention and community safety and community corrections *Communities and Crime* Pamela Wilcox, Francis T. Cullen, Ben Feldmeyer, 2018 This book provides an intellectual history that traces how varying images of community have evolved over time and influenced criminological thinking and criminal justice policy The authors outline the major ideas that have shaped the development of theory research and policy in the area of communities and crime Each chapter examines the problem of the community through a defining critical or theoretical lens the community as social disorganization as a system of associations as a symptom of larger structural forces as a result of criminal subcultures as a broken window as crime opportunity and as a site of resilience Focusing on these changing images of community the empirical adequacy of these images and how they have resulted in concrete programs to reduce crime this book theorizes about and reflects upon why some neighborhoods produce so much crime The result is a tour of the dominant theories of place in social science today **Crime and the Community** John Croft, 1979 **The Community Justice Ideal** Todd R

Clear, 2018-03-05 Over the past quarter century U S politicians have responded to the public's fear of crime by devoting ever more resources to building and strengthening the criminal justice apparatus which as a result has grown tremendously in size and cost Policymakers have also taken steps to toughen procedures for dealing with suspects and criminals and broaden legal definitions of what constitutes crime which has led to the incarceration under harsher than ever conditions of a record high percentage of the U S population Yet public confidence in the criminal justice apparatus is if anything lower than ever before and fear of crime continues to be high In recent years some activists scholars criminal justice officials and politicians have begun to call for a reexamination of get tough crime policies A more sensible approach to crime they argue would focus on community justice that is on building healthy communities in which criminality cannot take root and on making citizens and criminal justice into partners rather than adversaries In this thought provoking study Todd Clear and David Karp provide both a broad theoretical analysis of this ideal and a close examination of a range of attempts to put it into practice in communities throughout the country They conclude that by making the criminal justice system and the public into partners rather than adversaries community justice strategies for dealing with crime are both more effective and more resource efficient than the failed get tough approach **Crime and the Community** New York (State). Crime Commission, 1930

Crime, Communities, and Public Policy Chicago Assembly, 1995 Hardy management McGill U examines how Canadian university administrators responded to declining enrolment funding cutbacks and public demands for more accountability during the 1980s Citing six examples she argues that their efforts to centralize authority and reallocate resources have failed to account for the political realities of university life and conflict and recommends they take a broader view and seek consensus among competitors for scarce resources Canadian card order number C95 920993 X Annotation copyright by Book News Inc Portland OR **Community Crime Prevention**, 1983 *Crime, Community and Morality* Simon Green, 2014-03-21 Political leaders and the popular press tell us that society is in the grip of a moral crisis Where have our values gone our newspapers scream at us Benefit scroungers greedy bankers intrusive journalists have a go rioters political scandals and criminals of all shapes and sizes are continually cited as evidence that we live in a modern day Gomorrah Criminologists have studied this in several ways including media representations of crime mass incarceration hooliganism and the exercise of power and control through communities What criminologists have not studied is the place of morality in shaping public debate about understanding crime and how this then shapes crime control strategies Rather than dismiss statements about community breakdown broken society and irresponsibility as ideological self justificatory rhetoric what happens when we take these claims seriously What do they tell us about the causes of crime How do they shape the crime control agenda How else might we begin to understand and explain the relationship between crime and society Navigating between criminological concerns about control and governance and social theories about culture and identity this book explores what is meant by crime community and morality and puts this meaning to the test Discussion of a new theory

of rule breaking combined with an analysis of how our justice system is becoming maladapted makes this essential reading for criminologists around the globe as well as those general readers interested in the causes of crime The Politics of Community Crime Prevention Lisa L. Miller, 2019-05-24 This title was first published in 2001 This book explores the complex and often striking differences between national and local perspectives particularly those of racial minorities on crime prevention and the role that community residents should play in prevention programmes Community Education and Crime Prevention Carolyn M. S. Ward, 1998-10-28 This book introduces the philosophy of community education as a workable comprehensive approach to addressing crime and describes its use in the Hyde Park neighborhood of St Louis as a case example Community education attempts to rebuild communities by addressing three overriding and interrelated elements community empowerment community problem solving and the effort to involve all community members in the pursuit of lifelong learning **Crime, Community and Locale: The Northern Ireland Communities Crime Survey** David O'Mahony, Ray Geary, Kieran McEvoy, John Morison, 2019-01-15 This title was first published in 2000 This text reports on the findings of the Communities Crime Survey a communities based survey carried out within Northern Ireland The survey asked a number of questions beyond the usual remit of local crime surveys in order to explore more fully a whole range of issues relating to the experience of living in a society where more obvious manifestations of conflict are beginning to recede and other more mundane but still important issues relating to crime and policing are coming to the fore The book aims to go behind the headlines of violence and political conflict to examine how people in a range of communities in Northern Ireland experience a whole range of factors relating to crime policing and the general experience of living within their particular communities The process of change is far from over in Northern Ireland and this book indicates how some of the central issues that must be resolved are perceived by a range of ordinary people in various urban and rural communities in religiously segregated and integrated communities and those with different levels of income and social infrastructure The experiences and attitudes gathered are important in understanding how the process of change and development in this society might be advanced and what lessons might be offered to elsewhere The survey ultimately concludes that Northern Ireland is neither a homogeneous entity nor a society that is simply divided on religious and or political grounds Rather it is a society that is divided by religion and politics but also by a number of other variables including geography gender age socio economic class and ethnic origin all of which in part influence people's experiences and attitudes towards crime and policing

Rural Crime and Community Safety Vania A Ceccato, 2015-08-27 Crime is often perceived as an urban issue rather than a problem that occurs in rural areas but how far is this view tenable This book explores the relationship between crime and community in rural areas and addresses the notion of safety as part of the community dynamics in such areas Rural Crime and Community Safety makes a significant contribution to crime science and integrates a range of theories to understand patterns of crime and perceived safety in rural contexts Based on a wealth of original research Ceccato combines

Mapping Crime in Its Community Setting Michael Maltz, Andrew C. Gordon, Warren Friedman, 1991 Gathering accurate data probably constitutes one of the most important aspects of crime investigation and prevention How do we put the data to use How can we improve our methods of handling the information we collect By describing a project for the development and implementation of a computerized crime mapping system in the Chicago area this book makes a significant contribution toward a more efficient and intelligent use of crime data to understand and prevent crime in a community setting

The Local Governance of Crime Adam Crawford, 1999 The book considers recent trends in the local governance of crime It examines the growing appeal to community and partnerships in criminal justice policy and the involvement of actual communities and partnerships in criminal justice practices The book makes sense of ongoing transformations in the relations between the state market and civil society in the governance of crime and personal safety It draws upon the findings of two empirical research projects conducted by the author in the fields of community based crime prevention and local victim offender and community mediation The overall aim of the book is to answer both theoretically and empirically a number of interrelated questions namely How do we make sense of appeals to community and partnerships in criminal justice policy What are the implications of actual involvement of communities and the establishment of inter organizational partnerships in crime control initiatives Is crime control an appropriate vehicle around which to re organize communities Finally if so what sort of communities are we generating through such a focus

Community Policing Michael Palmiotto, 1999 Law Enforcement Policing Security

Community Justice Todd R. Clear, Eric Cadora, 2003 Part of the Wadsworth Contemporary Issues in Crime and Justice series this text is a formative work that discusses the concepts of community within the context of justice policy and programs This philosophy ties together a number of influential changes in the system the success of problem solving policing the expansion of community courts experiments in neighborhood probation and the influence of restorative justice Clear and Cadora analyze how these changes in the system are a dramatic shift that illuminates how concerns for social justice merge with criminal justice innovations to provide new solutions to many system ills under the banner of Community Justice
