Crime Talk How Citizens Construct A Social Problem:

Crime Talk Theodore Sasson, Crime in the streets has remained consistently among the most conspicuous aspects of the American political landscape Sasson argues that the significance of our national pre occupation with the issue depends on how it is constructed or framed in the mass media and in everyday conversation Drawing on the methodology for analyzing issue frames in political discourse developed by William Gamson who has contributed a foreword to this book Sasson identifies the five interpretative frames that comprise the crime debate Faulty System Social Breakdown Blocked Opportunities Media Violence and Racist System Tracking the performances of these frames in twenty small group discussions among black and white urbanites and in a sample of newspaper columns he demonstrates that the two generally conservative frames Faulty System and Social Breakdown are by far the most prominent He explains their prominence in the group discussions through a careful analysis of the ideational resources popular wisdom personal experience media discourse used by the participants Sasson s empirical findings lead him to conclude that the American preoccupation with crime will generate recurrent demands for a more expansive and punitive criminal justice system and new support for conservative politicians and their causes Apart from its contribution to the understanding of the civic role of crime and of the politics of crime control *Crime Talk* also advances a methodology for framing popular discourse and a theoretical perspective on how ordinary citizens make sense of social problems A study at the intersections of criminology and political sociology it will capture the attention of a wide range of social scientists as well as instructors in courses on social problems the mass media and research methodology *Crime Talk* T. Sasson,1995

The Role of the Media in Criminal Justice Policy

Natalia Antolak-Saper,2022-09-09 This book provides a socio legal examination of the media s influence on the development and implementation of criminal justice policy This impact is often assumed And especially in the wake of high profile crimes the press is routinely observed calling for sentences to be harsher and for governments to be tougher on crime But how do we know that there is a connection To answer this question the book draws on a case study of the media reporting of the rape and murder of Jill Meagher in Melbourne Australia as well as other well known cases including those of James Bulger Sarah Payne Stephen Lawrence and Michael Brown among others Deploying a socio legal framework to examine how the media s often powerful and emotive narratives play a crucial role in the development and implementation of law the book provides a deep and critical reflection on its influence The book concludes with a number of suggestions for media reform both to moderate the media s influence and to incorporate a broader range of viewpoints This multi disciplinary book will appeal to scholars and students in sociolegal studies criminology and criminal law as well as those working in relevant areas in sociology and media studies **A Sociology of Crime** Stephen Hester,Peter Eglin,2017-05-15 A Sociology of Crime has an outstanding reputation for its distinctive and systematic contribution to the criminological literature Through detailed examples and analysis it shows how crime is a product of processes of criminalisation constituted through the interactional

and organizational use of language In this welcome second edition the book reviews and evaluates the current state of criminological theory from this grammatical perspective It maintains and develops its critical and subversive stance but greatly widens its theoretical range including dedicated chapters on gender race class and the post als including postcolonialism It now also provides questions exercises and further readings alongside its detailed analysis of a set of international examples both classical and contemporary

Security and Human Rights Benjamin Goold,Liora Lazarus,2007-06-07 In the wake of the events of September 11th the task of reconciling issues of security with a respect for fundamental human rights has emerged as one of the key challenges facing governments throughout the world Although the issues raised by the rise of security have been the subject of considerable academic interest to date much of the debate surrounding the impact of security on human rights has taken place within particular disciplinary confines In contrast this collection of essays from leading academics and practitioners in the fields of criminal justice public law international law international relations and legal philosophy offers a genuinely multidisciplinary perspective on the relationship between security and human rights In addition to exploring how the demands of security might be reconciled with the desire to protect established rights *Security and Human Rights* offers a fresh perspective on the broader legal and political challenges that lie ahead as states attempt to control crime prevent terrorism and protect their citizens

Focus Groups as Qualitative Research David L. Morgan,1997 The extensively revised edition of the best selling *Focus Groups as Qualitative Research* continues to provide an excellent guide for researchers across the disciplines Reflecting the many changes that have occurred in the study

of focus groups in recent years the book begins with an updated introduction offering a discussion of current social science approaches to focus groups Expanded coverage on the comparison of focus groups to individual interviews follows and there is more material on the strengths and weaknesses of focus groups The section on self contained focus groups has also been expanded Subsequent chapters have been revised to include examples from social scientists who have established their own practices and methodological research on focus groups In conclusion the author offers future directions and references that take into account the explosive growth of focus groups as a research tool for all social scientists

The Politics of

Injustice Katherine Beckett, Theodore Sasson, 2000 This book examines the US crime problem and the resulting policies as a political and cultural issue It draws on a wide range of scholarship including the representation of crime in political discourse the mass media and public opinion It proposes that the punitive turn in crime policy is not just the result of a worsening crime problem or an increasingly fearful and vengeful public but reflects efforts by national politicians to shift public policy on a variety of social problems toward harsher more repressive solutions

Criminal Visions Paul Mason, 2003 Despite being an increasingly high profile subject few publications address media representations of law and order head on This book aims to meet this need by bringing together an important range of papers from leading researchers in the field addressing issues of fictional factual and hybrid representations of crime in the media

Readings in Law and Popular Culture Guy Osborn, Steve Greenfield, 2006 Fascinating and varied this is the first book to bring together high quality research with an emphasis on context from key researchers working at the cutting edge of both law and cultural disciplines
