Criminal Sentencing:

The Social Contexts of Criminal Sentencing Martha A. Myers, Susette M. Talarico, 2012-12-06 Historically the announcement and invocation of criminal penalties were public spectacles Today fear of crime and disaffection with the criminal justice system guarantee that this public fascination with punishment continues In the past decade virtually every legislature in the country has undertaken sentencing reform in the hope that public concern with crime would be allayed and disparities in criminal sentences would be reduced if not eliminated Scholars have intensified their longstanding preoccupation with discrimination and the sources of disparate treatment during sentencing issues that continue to fuel contemporary reform efforts As documented in Chapter 1 empirical research on sentencing has concentrated much of its attention on the offender Only recently have attempts been made to imbed sentencing in its broader organizational and social contexts Our study extends these attempts by quantitatively analyzing the relationship between the offender and the social contexts in which he or she is sentenced We use data on felony sentencing in Georgia between 1976 and 1985 to ask three questions The first addresses an issue of perennial concern during sentencing how important are offender attributes both those of explicit legal relevance and traits whose legal relevance is questionable or nonexistent The second question directs attention to the social contexts of sentencing and asks whether they directly affect sentencing outcomes

Sentencing Multiple Crimes Jesper Ryberg, Julian V. Roberts, Jan W. de Keijser, 2017-10-10 Most people assume that criminal offenders have only been convicted of a single crime However in reality almost half of offenders stand to be sentenced for more than one crime The high proportion of multiple crime offenders poses a number of practical and theoretical challenges for the criminal justice system For instance how should courts punish multiple offenders relative to individuals who have been sentenced for a single crime How should they be punished relative to each other

Sentencing Multiple Crimes discusses these questions from the perspective of several legal theories This volume considers questions such as the proportionality of the crimes committed the temporal span between the crimes and the relationship between theories about the punitive treatment of recidivists and multiple offenders Contributors from around the world and in the fields of legal theory philosophy and psychology offer their perspectives to the volume A comprehensive examination of the dynamics involved with sentencing multiple offenders has the potential to be a powerful tool for legal scholars and professionals particularly given the practical importance of the topic and the relative dearth of research about punishment of multiple offense cases
