## **Criminological Controversies A Methodological Primer:**

*Criminological Controversies* John Hagan,A. R. Gillis,David Brownfield,1996 A lucid text addressed to students and scholars this book explores some of the key controversies that have stimulated the scientific study of crime disputes about the connections between gender class and crime policing the criminality of our cities the role of peer groups in the causes of crime and links between drugs and crime In pursuing the resolution of key controversies surrounding these and other issues the authors introduce students to fundamental methods of research and analysis The book matches the methods of the field with important theoretical and empirical issues giving students a sense of direct experience in criminological research and conveying the process and excitement of generating satisfying insights into important questions about crime

**Criminological Controversies** John L Hagan,A. R. Gillis,David Brownfield,A R Gillis,2018-02-19 This book is about how to study crime It addresses the controversies in crime as a means of developing answers and of contributing to the resolution of disputes and as a means of introducing and explaining basic methods of a social science of crime *Delinquency and Drift Revisited, Volume 21* Thomas G. Blomberg,Francis T. Cullen,Christoffer Carlsson,Cheryl Lero Jonson,2017-07-31 Fifty years ago David Matza wrote *Delinquency and Drift* challenging the ways people thought about the development of criminals Today *Delinquency and Drift Revisited* reminds criminologists that they ignore Matza s writings at their own intellectual peril Matza s work shows his insights on a range of core criminological issues such as the complex nature of culture and its connection to criminality the extent to which rule breakers are truly different from the rest of us the importance of focusing on human agency in understanding the subjective side of offending the interaction of propensity and peer influences in criminal involvement the role of the state in signifying individuals as deviant and entrapping them in criminal roles and the processes that lead offenders to desist from crime This volume was not written to pay homage to Matza but to show how his ideas remain relevant to criminology today by continuing to question conventional wisdom by making us pay attention to realities we have overlooked and by inspiring us to theorize more innovatively *Race to Incarcerate* Marc

Mauer,2006-04-28 A stunning examination of how the United States became the incarceration capital of the world from one of the country s leading experts on sentencing policy race and the criminal justice system In this revised edition of his seminal book on race class and the criminal justice system Marc Mauer former executive director of one of the United States leading criminal justice reform organizations offers the most up to date look available at three decades of prison expansion in America *Race to Incarcerate* tells the tragic story of runaway growth in the number of prisons and jails and the overreliance on imprisonment to stem problems of economic and social development Called sober and nuanced by Publishers Weekly *Race to Incarcerate* documents the enormous financial and human toll of the get tough movement and argues for more humane and productive alternatives *International Handbook of Violence Research* Wilhelm Heitmeyer,John Hagan,2005-08-12 An international manual is like a world cruise a once in a lifetime experience All the more reason to consider carefully whether it

is necessary This can hardly be the case if previous research in the selected field has already been the subject of an earlier review or even several competing surveys On the other hand more thorough study is necessary if the intensity and scope of research are increasing without comprehensive assessments That was the situation in Western societies when work began on this project in the summer of 1998 It was then too that the challenges emerged any manual especially an international one is a very special type of text which is anything but routine It calls for a special effort the state of the art has to be documented for selected subject areas and its presentation made as compelling as possible The editors were delighted therefore by the cooperation and commitment shown by the eighty one contributors from ten countries who were recruited to write on the sixty two different topics by the constructive way in which any requests for changes were dealt with and by the patient response to our many queries This volume is the result of a long process It began with the first drafts outlining the structure of the work which were submitted to various distinguished colleagues Friedheim Neidhardt of Berlin Gertrud Nunner Winkler of Munich and Roland Eckert of Trier to name only a few supplied valuable comments at this stage

**Biosocial Theories of Crime** Kevin M. Beaver, 2017-07-05 Biosocial criminology is an emerging perspective that highlights the interdependence between genetic and environmental factors in the etiology of antisocial behaviors However given that biosocial criminology has only recently gained traction among criminologists there has not been any attempt to compile some of the classic articles on this topic Beaver and Walsh's edited volume addresses this gap in the literature by identifying some of the most influential biosocial criminological articles and including them in a single resource The articles covered in this volume examine the connection between genetics and crime evolutionary psychology and crime and neuroscience and crime This volume will be a valuable resource for anyone interested in understanding the causes of crime from a biosocial criminological perspective

**Contesting Crimmigration in Post-hukou China** Tian Ma, 2022-08-11 This book focuses on the criminalization trend and process regarding the internal migration in contemporary China from the perspective Law in Action In Chinese society today internal migrants are commonly perceived as criminals Crimmigration a global term that communicated the convergence of the criminal legal system and the immigration enforcement system manifest itself in China's hukou based also known as the household registration system criminal legal system How hukou has been constructed into the concept of Crimmigration in China strikes at the core of the ultimate questions of this book who is being criminalized how does the political economic cultural institution known as hukou shape the criminal justice process and how has the role of hukou changed over time in the ever changing process Drawing on interviews with police prosecutors criminal lawyers judges prison staff and migrant leaders in Yangtze River Delta China this book reflects on a historical development on hukou and its function in social control Each chapter contributes to an extended analysis of pragmatic aspects of decision making moments in the criminal justice system This book will appeal to criminology researchers and students with an interest in law politics migration and citizenship in contemporary China
