People used to go window shopping now they go Windows shopping. Online shopping can save you time and money IF you know what you're doing. That's where 2005 Online Shopping Directory For Dummies comes in. The first part of the book covers buying from online auctions and ads and let the buyer beware information reminding you to check out the product or company, check shipping and handling fees, look for secure sites and more. Then comes the fun part: a listing of more than 1,500 selected sites. Get ready to browse literally. This is more than a directory; it's a Cybershopper's dream with sites grouped into 21 categories such as apparel, computers and electronics, babies and children, home and garden, health and beauty, food, malls and mega stores, travel and more. Icons that rate each site by price, selection, service, convenience and security. A description of each site that includes the URL, company name, types of merchandise and a paragraph about the e-tailer. 2005 Online Shopping Directory For Dummies was written by Barbara Kasser, author of several books on the Internet and an avid online shopper, and Frank Fiore, author of six eBusiness books and the Online Shopping Guide for About.com. Together they created a terrific reference with extensively cross-referenced indexes so you can find products by company name, product name, keywords or URL. Tips on everything from how to find the best prices to what to do if you have a problem. Sites you might never find on your own like giftsongs.com, ducttapecreations.com, revengeunlimited.com and more. You won't find shops like that at the mall. Whether you're a bargain hunter, a collector of German beer steins, a radio controlled airplane enthusiast or just a typical shopper with 2005 Online Shopping Directory For Dummies you'll find what you're looking for plus things you didn't know existed.
