Book Review 1 A collection of intimate interviews with people regarding the personal familial cultural and geographic factors in their working lives Inspired by Studs Terkel s *Working* 1974 which profiled ordinary American workers editor Skees *God Among the Shakers* 1998 takes the concept global Six of her 16 subjects live in the United States including a slack key guitarist in Honolulu an architect in Cincinnati and a recruiter headhunter in Tampa Florida The rest are on other continents including a coffee farmer in Nicaragua a Masai warrior in Tanzania a married couple running an eco friendly factory in India a rickshaw puller in Bangladesh and a private equity manager in Hong Kong Skees organizes the material into five sections Entrepreneurship Industry and Transportation Farming Food and Animals Finance and Technology and Music an environmental activist in American coal country a banana farmer in Uganda a college admissions counselor in Rwanda and a fringe diplomat in Tel Aviv Few books dig so deeply into life as it s actually lived with such unsparing intimacy Prose Skees s own prose is sharp clear and purposeful but outside of introductions and some notes most of the book come straight from the mouths of her subjects through first person monologue Skees breaks the chapters up into short labeled sections This is helpful for skimmers but the shortness of the individual sections gives the chapters a stop and start feeling impeding narrative momentum Originality This isn t the first book to survey workers in their own words

about work nor even the first one by Skees to do so but the author has selected a fresh fascinating cross section of people to reveal truths about the world and this current moment Execution The book offers insights wisdom challenges to orthodox thinking and some arresting first person storytelling It s both eye opening and a pleasure to learn about the day to day work of a Zambian mobile money agent and to discover how that work is vital to a population outside of the banking system That said the narrators individual voices sound somewhat similar to each other and the speakers too rarely offer up surprising or engaging anecdotes The emphasis here is strongly on the work itself and the sociopolitical context that created the opportunity for such work There s great value in capturing that but the book might prove more enticing for general audiences with a greater emphasis on voice and storytelling Booklife Publisher s Weekly *Work From Home Made Simple And Easy* Colton McCotter,2021-03-14 In the new and changed world where everyone is working remotely it s essential you have a guide on how to work from home effectively and be on the top of your game despite the many distractions In this Job Hunting Handbook you will discover Over 100 ways you can have a successful career working from the comfort of your own home All skill levels and touches on nearly every sector of gainful employment that can be performed remotely From highly skilled medical professionals to someone just now entering the workforce with little to no prior experience there s a job for you Chapters divided by how you would go about finding a job you love What work you might want to do establishing what you re good at and general advice about job hunting and working from home Practical guidance for finding that job in the real world Places to find freelance or gig work and suggesting some job opportunities you might take advantage of working from your house as a base of operations And so much more This remote jobs guide is essential for all remote workers and people planning to start working from home **Online Businesses For Mom** Andrew K Bolden,2023-06-13 Are you a mom looking to build a successful online business from the comfort of your home In Online Business For Mom Navigating the World of Remote Jobs and Entrepreneurship we delve into the myriad choices available to you while working from home The first step is to determine if working from home aligns with your aspirations Once you ve made that decision it s time to explore the types of work from home jobs that best suit your skills and interests With numerous options available for work from home both online and offline finding the right employment begins with assessing your talents and professional needs This book serves as your guide to taking that crucial first step towards a thriving work from home mom career Transitioning from traditional employment to a work from home setup can be a natural progression Many women find opportunities as independent contractors within their industry leveraging their prior job history as a springboard for success in the work from home realm For those who view their role as stay at home moms as an opportunity to explore new paths entry level employment as an independent contractor is available Various professions such as customer service data entry virtual personal assistance and medical transcription can be pursued from the comfort of your home requiring only a reliable internet connection and a functional phone If you aspire to launch your own business the possibilities are endless Consider
