

2. Conservative laws

A steady current I in a long wire produces a magnetic field $\mathbf{B}$ that is tangent to any circle that lies in the plane perpendicular to the wire and whose center is the axis of the wire. It can be shown that the magnitude $B = \|\mathbf{B}\|$ of the magnetic field at a distance r from the center of the wire is

$$B = \frac{\mu_0 I}{2\pi r},$$

where μ_0 is the permeability of free space. That is, for a wire along the z -axis with a steady current I , we have

$$\mathbf{B}(x, y) = \frac{\mu_0 I}{2\pi(x^2 + y^2)} (-y\mathbf{i} + x\mathbf{j}).$$

- (i) Consider the curve $S = \{\cos(t)\mathbf{i} + \sin(t)\mathbf{j} : 0 \leq t < 2\pi\}$ in the $z = 0$ plane. What is the work done over this curve by the magnetic field? Is $\mathbf{B}$ conservative in the region contained by the curve?
- (ii) Consider the curve S that goes around the square with vertices $(1,1)$, $(2,1)$, $(2,2)$ and $(1,2)$ (counterclockwise direction) in the $z = 0$ plane. What is the work done over this curve by the magnetic field? Is $\mathbf{B}$ conservative in the region contained by the curve?

Legal Scholarship, Microcomputers, and Super-Optimizing Decision-Making Stuart S. Nagel, 1993-10-30 An exciting aspect of contemporary legal scholarship is a concern for law from a global perspective across all legal fields The book draws upon examples from North America Western Europe Africa Asia Eastern Europe and Latin America It refers to the basic private law fields of torts property contracts and family law It also refers to the basic public law fields of constitutional law administrative law criminal law and international law It analyzes diverse legal policy problems from a perspective that is designed to produce solutions whereby conservatives liberals and other major viewpoints can all come out ahead of their best initial expectations simultaneously Such solutions can be considered an important part of an innovative concept of justice that emphasizes being effective efficient and equitable simultaneously rather than compromising on any of those justice

components Another exciting aspect of contemporary legal scholarship is a concern for the use of modern technology in the form of microcomputer software that can be helpful in law teaching practice and research Computer aided instruction can supplement the case method by using what if analysis to make changes in the goals to be achieved alternative decisions available for achieving them the factual relations and other inputs to see how the decisions might change with changes in those inputs Computer aided law practice can be helpful in counseling negotiation mediation case analysis legal policy evaluation and advocacy Computer aided research can be helpful in testing deductive or statistical models to determine how well they can explain variance across the judicial process or other legal processes Solid Waste Disposal Act Extension
