

The background image is a photograph of a conservatory. In the center, a wooden rocking chair with a woven seat sits on a floor made of square tiles with a trellis pattern. To the left, a wooden planter box is filled with various potted plants, including some with pink flowers. To the right, more potted plants are visible, including one with large, dark green leaves. The conservatory has large glass windows in the background, and the overall atmosphere is bright and lush.

Planning and Building a Conservatory Paul Hymers,2005 For the majority of homeowners in the UK today extending our living space and adding value to our existing homes is an essential part of owning a home As property prices go up and the costs of moving house increase more and more people are looking to adapt their houses to suit changing lifestyles Adding a conservatory has always been a popular way of achieving that extra space it is estimated that 200 000 conservatories were built in the UK in 1999 From relatively simple conservatories to elaborate garden rooms there is a huge variety of styles to choose from whether you are creating something to blend in with an existing style or creating an entirely modern structure Planning and Building a Conservatory is an easy access book which provides clear and concise information on how to plan and supervise work on a conservatory including choosing the design obtaining planning permission and hiring builders and contractors Advice on flooring lighting and heating is also given as well as tips on maintaining your conservatory This book will guide the reader through all the stages and will show how to avoid costly mistakes [A Handbook of First Semester](#)
