Conserving Our World Conserving The Polar Regions Conserving Our World:

Conserving the Polar Regions Barbara James, 1990-12 Focuses on the two polar regions the Arctic and the Antarctic and discusses their uniqueness their relation to world climate their development and conservation and the threat of pollution

Conservation, Biodiversity and International Law A. Gillespie, 2013-07-01 Humanity has been gambling for generations with the extent to which it can degrade nature and continue to prosper Now the environmental debt is being called in and the ability of international diplomacy and law government policy and political will to deal with the issues is being tested Conservation Biodiversity and International Law is a must read for any practitioner in the high stakes business of restoring our ability to live in harmony with the natural world that sustains us Alastair Morrison Department of Conservation New Zealand Biodiversity is the cornerstone of life our plants animals and ecosystems are essential for livelihoods and have shaped our culture and traditions around the world However our precious biodiversity is at risk as never before Global targets to reduce biodiversity loss have not been met and we continue to lose biodiversity at an unprecedented rate In fact we are currently in the middle of an extinction crisis and scientists have advised that one species from our planet is being lost every 38 minutes The nature of this crisis and the actions taken to address it are clearly and articulately put forward in this landmark book by Professor Al Gillespie This book is particularly useful in documenting the many policy and legal actions that have been taken to address these issues and how the application of these instruments can be improved Although focused on the law the book covers a range of disciplines including science philosophy and policy which lay the foundation for international law This book makes a major and highly valued contribution to the discipline of environmental law and policy and is an invaluable reference for policy makers practitioners and academic audiences David Sheppard CEO of the Secretariat of the Pacific Regional Environment Programme SPREP This book is written by a prominent and influential scholar who also has the benefit of first hand knowledge of practical working of environmental regimes having participated in several important negotiations Gillespie's monograph therefore stands out among other publications on the subject of conservation combining thoughtful and scholarly approach to issues raised with unparallel insights into the working of environmental law and the conservation of biodiversity The book is very original in its presentation of this subject especially in the selection of topics and the approach which is not only legal but also scientific philosophical and political This book is evidence of the great erudition of the author not only in the field of conservation but also in international environmental law and general international law an example of which can be his analysis of the precautionary principle trade and a very complex issue of the exception for indigenous peoples and science Mention also must be made of his detailed approach to various multilateral treaty regimes such as Ramsar Convention and the World Heritage Convention Gillespie wrote an exceptional book which is a must for international layers both practitioners and scholars It is a thought provoking very well researched and original monograph which due to its all encompassing approach will retain its importance for a very long period of time Malgosia

Fitzmaurice Queen Mary University of London UK A major work this book provides a comprehensive picture of the international legal challenges of natural heritage conservation Truly an indispensable tool for policy makers experts and students The book offers a complete guide to the complex world of treaties that regulate conservation at the global scale Francesco Bandarin UNESCO Assistant Director General for Culture This important and timely book provides a rigorous overview of the defining issues presently facing conservation at international level The author provides detailed coverage of topics ranging from the classification of species right through to access and benefit sharing drawing on his personal experience at intergovernmental level Each question is examined through the prism of dozens of treaties and hundreds of decisions and resolutions of the key multilateral regimes and the law in each area is supplemented by the necessary considerations of science politics and philosophy providing much needed context for the reader Combining expert scholarship and first hand insight Conservation Biodiversity and International Law will be an invaluable resource for researchers and practitioners in international environmental law as well as providing an accessible guide for students

Whitaker's Books in Print ,1998 *The Population Ecology and Conservation of Charadrius Plovers* Mark A.

Colwell,Susan M. Haig,2019-04-26 The 40 or so species of beach loving plovers genus Charadrius comprise a diverse group of shorebirds found around the world Most of these species are challenged by changing climates and other human related development activities yet they provide key insights into basic ecological and evolutionary processes The expert international contributors take a comparative approach presenting examples from many worldwide plover studies and synthesizing the group s most pressing and important topics The book further presents an emphasis on full life cycle biology including the importance of examining migratory connectivity issues even for non migratory plovers Color pages were planned and approved for some pages in this volume but due to a printing error some copies have incorrectly been released with these pages printed in black and white Replacement copies with the correct color in place can be obtained upon request by contacting orders crcpress com CRC Press extends apologies to any customers affected by this error and for the inconvenience caused Key Features Serves as a fundamental resource for conservation practitioners Detailed overview of a widely distributed group of shorebirds Authored by renowned specialists who present theoretical and applied perspectives Emphasis on comparative and synthetic approach in all chapters Related Titles McComb B et al Monitoring Animal Populations and Their Habitats A Practitioner s Guide ISBN 978 0 4291 3827 0 Garvey J E M R Whiles Trophic Ecology ISBN 978 1 4987 5846 8 Dewdney A K Stochastic Communities A Mathematical Theory of Biodiversity ISBN 978 1 1381 9702 2

Report on the Necessity of Preserving and Replanting Forests ,1883 *The Conservation of the Wild Life of*

Canada Charles Gordon Hewitt,1921 The status of wildlife and their protection in reserves and by legislation Instructor ,1992 **Saving Arcadia** Heather Shumaker,2017-01-04 A David and Goliath conservation story set on Lake Michigan

Saving Arcadia A Story of Conservation and Community in the Great Lakes is a suspenseful and intimate land conservation

adventure story set in the Great Lakes heartland The story spans more than forty years following the fate of a magnificent sand dune on Lake Michigan and the people who care about it Author and narrator Heather Shumaker shares the remarkable untold stories behind protecting land and creating new nature preserves Written in a compelling narrative style the book is intended in part as a case study for landscape level conservation and documents the challenges of integrating economic livelihoods into conservation and what it really means to preserve land over time This is the story of a small band of determined townspeople and how far they went to save beloved land and endangered species from the grip of a powerful corporation Saving Arcadia is a narrative with roots as deep as the trees the community is trying to save something set in motion before the author was even born And yet Shumaker gives a human face to the changing nature of land conservation in the twenty first century Throughout this chronicle we meet people like Elaine a nineteen year old farm wife Dori a lakeside innkeeper and Glen the director of the local land trust Together with hundreds of others they cross cultural barriers and learn to help one another in an effort to win back the six thousand acre landscape taken over by Consumers Power that is now facing grave devastation The result is a triumph of community that includes working farms local businesses summer visitors year round residents and a network of land stewards A work of creative nonfiction Saving Arcadia is the adventurous tale of everyday people fighting to reclaim the land that has been in their family for generations It explores ideas about nature and community and anyone from scholars of ecology and conservation biology to readers of naturalist writing can gain from Arcadia s story Winner of the Eric Hoffer Book Award The Next Generation Indie Book Award and the Michigan Notable Book Award
