on Henry VIII However there no longer exists a universally accepted popularization of Tudor history so certain representations can lead to intense debates for instance in case of the TV show The Tudors Detailed studies of how audiences appropriate the narratives complement a thorough analysis of each text In this manner the monograph examines how different sense resources are shaped into histories in various new subgenres and how the audiences too actively compare these histories All of this takes place within an increasingly diverse historical culture Simple notions of history as a top down process are refuted as the role of the consumers and the use which they make of the individual histories is highlighted
