## **Constant Stranger:**

**A World of Strangers** Lyn H. Lofland, 1985 In traditional human societies the stranger was a threat to be disarmed at once by an act of force or by a ritual of hospitality Under no conditions could a stranger be ignored or taken for granted Yet in all great cities today human beings seem to live out their entire lives in a world of strangers How did it become possible for millions of people to do this How is city life possible The unique value of *A World of Strangers* lies in Lofland's expert use of rich historical and anthropological sources to answer these questions She demonstrates that a potentially chaotic and meaningless world of strangers was transformed into a knowable and predictable world of strangers by the same mechanism humans always use to make their world livable it was ordered Lofland offers a brilliant analysis of the various devices used at different times in history to create social and psychological order in cities concluding with an analysis of the contemporary city in which the location of the encounter between strangers has come to replace personal appearance as a means of evaluating others Lofland also describes how city people initially learn and then act upon the ordering principles dominant in their society *A World of Strangers* is a wonderfully wise and readable account of how we have come to live as we do **G.**

**John Berger**, 2011-07-13 In this luminous novel winner of Britain's prestigious Booker Prize John Berger relates the story of G a young man forging an energetic sexual career in Europe during the early years of this century With profound compassion Berger explores the hearts and minds of both men and women and what happens during sex to reveal the conditions of the Don Juan's success his essential loneliness the quiet cumulation in each of his sexual experiences of all of those that precede it the tenderness that infuses even the briefest of his encounters and the way women experience their own extraordinariness through their moments with him All of this Berger sets against the turbulent backdrop of Garibaldi and the failed revolution of Milanese workers in 1898 the Boer War and the first flight across the Alps making G a brilliant novel about the search for intimacy in history's private moments **The Light the Dead See** Frank Stanford, 2025-09-01 Between 1972 when he

published his first book *The Signing Knives* and 1978 when he died at the age of twenty nine Frank Stanford published seven volumes of poetry Within a year of his death two posthumous collections were published At the time of this death as Leon Stokesbury asserts in his introduction Stanford was the best poet in America under the age of thirty five *The Light the Dead See* collects the best work from those nine volumes and six previously unpublished poems In the earlier poems Stanford creates a world where he could keep childhood alive deny time and mutability and place a version of himself at the center of great myth and drama Later the denial of time and mutability gives way to an obsessive and familiar confrontation with death Although Stanford paid an enormous price for his growing familiarity with Death as a presence the direct address to that presence is a source of much of the striking originality and stunning power in the poetry *Dr. Adriaan Louis*

*Couperus*, 1918 *The Book of the Small Souls* Louis Couperus, 1918 **G. John Berger** John Berger, 2012-01-01 The 40th anniversary edition of this classic Booker Prize winning novel *Borders and Debordering* Eduardo Mendieta, Tomáš

Grušovnik, Lenart Škof, 2018-04-11 *Borders Debordering Topologies* Praxes Hospitableness engages from interdisciplinary and transnational perspectives some of the most important issues of the present which lay at the intersection of physical epistemological spiritual and existential borders The book addresses a variety of topics connected with the role of the body at the threshold between subjective identities and intersubjective spaces that are drawn in ontology epistemology and ethics as well as with borders inscribed in intersubjective social and political spaces such as gender sexuality race human animal nature technology divisions The book is divided in three sections covering various phenomena of borders and their possible debordering The first section offers insights into bordering topologies from reflections on the U S border to the development of the concept of the border in ancient China The second section is dedicated to practices as well as intellectual ontologies with practical implications bound up with borders in different cultural and social spheres from Buddhist nationalism in Sri Lanka and Myanmar to contemporary photography with its implications for political systems and reflections on human animal border The third section covers reflections on hospitality that relate to migration issues emerging material ethics and aerial hospitableness **Arkansas Review** ,2020 **The New Encyclopedia of Southern Culture** M.
