Constitutional Interpretation 2000 Supplement Only:

The New York Supplement, 1916 **New York Supplement**, 1916 Includes decisions of the Supreme Court and various intermediate and lower courts of record May Aug 1888 Sept Dec 1895 Superior Court of New York City Mar Apr 1926 Dec 1937 Jan 1938 Court of Appeals **Constitutional Review in Central and Eastern Europe** Kálmán Pócza, 2024-02-13 Recent confrontations between constitutional courts and parliamentary majorities in several European countries have attracted international interest in the relationship between the judiciary and the legislature Some political actors have argued that courts have assumed too much power and politics has been extremely judicialized This volume accurately and systematically examines the extent to which this aggregation of power may have constrained the dominant political actors room for manoeuvre To explore the diversity and measure the strength of judicial decisions the contributors to this work have elaborated a methodology to give a more nuanced picture of the practice of constitutional adjudication in Central and Eastern Europe between 1990 and 2020 The work opens with an assessment of the existing literature on empirical analysis of judicial decisions with a special focus on the Central and Eastern European region and a short summary of the methodology of the project This is followed by ten country studies and a concluding chapter providing a comprehensive comparative analysis of the results A further nine countries are explored in the counterpart volume to this book Constitutional Review in Western Europe Judicial Legislative Relations in Comparative Perspective The collection will be an invaluable resource for those working in the areas of empirical legal research and comparative constitutional law as well as political scientists interested in judicial politics Chapters 1 5 and 12 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **Law Under a Democratic Constitution** Lisa Burton Crawford, Patrick Emerton, Dale Smith, 2019-05-16 Jeffrey Goldsworthy is a renowned constitutional scholar and legal theorist whose work on the powers of Parliament and the interpretation of constitutional and statute laws has helped shape debates on these topics across the English speaking world The importance of democratic constitutionalism is central to Professor Goldsworthy's work it lies at the heart of his defence of Parliamentary supremacy and shapes his approach to both constitutional and statutory interpretation In honour of Professor Goldsworthy's retirement this collection provides new perspectives from a range of leading public law scholars and theorists on the legal and philosophical principles that govern the making and interpretation of laws in a constitutional democracy It also addresses some of the challenges to democratic constitutionalism that have arisen in light of contemporary developments in Australia Canada New Zealand the United Kingdom and the United States **Judicial Law-Making in European Constitutional Courts** Monika Florczak-Wątor, 2020-05-07 This book analyses the specificity of the law making activity of European constitutional courts The main hypothesis is that currently constitutional courts are positive legislators whose position in the system of State organs needs to be redefined The book covers the analysis of the law making activity of

four constitutional courts in Western countries Germany Italy Spain and France and six constitutional courts in Central East European countries Poland Hungary the Czech Republic Slovak Republic Latvia and Bulgaria as well as two international courts the European Court of Human Rights ECtHR and the Court of Justice of the European Union CJEU The work thus identifies the mutual interactions between national constitutional courts and international tribunals in terms of their law making activity The chosen countries include constitutional courts which have been recently captured by populist governments and subordinated to political powers Therefore one of the purposes of the book is to identify the change in the law making activity of those courts and to compare it with the activity of constitutional courts from countries in which democracy is not viewed as being under threat Written by national experts each chapter addresses a series of set questions allowing accessible and meaningful comparison The book will be a valuable resource for students academics and policy makers working in the areas of constitutional law and politics
