alive and relevant

The Constitution and the New Deal G. Edward White, 2002-05-15 In a powerful new narrative G. Edward White challenges the reigning understanding of twentieth century Supreme Court decisions particularly in the New Deal period. He does this by rejecting such misleading characterizations as liberal conservative and reactionary and by reexamining several key topics in constitutional law. Through a close reading of sources and analysis of the minds and sensibilities of a wide array of justices including Holmes, Brandeis, Sutherland, Butler, Van Devanter, and McReynolds, White rediscovers the world of early twentieth century constitutional law and jurisprudence. He provides a counter story to that of the triumphalist New Dealers. The deep conflicts over constitutional ideas that took place in the first half of the twentieth century are sensitively recovered and the morality play of good liberals vs. mossbacks is replaced. This is the only thoroughly researched and fully realized history of the constitutional thought and practice of all the Supreme Court justices during the turbulent period that made America modern.

The Constitution's Text in Foreign Affairs Michael D. Ramsey, 2007-06 Ramsey describes the constitutional law of foreign affairs derived from an historical understanding of the Constitution's text. Examining recurring foreign affairs controversies such as the power to enter armed conflict, the author shows how the words, structure, and context of the Constitution can resolve pivotal court cases and modern disputes.

The Heritage Guide to the Constitution David F. Forte, Matthew Spalding, 2014-09-15 A landmark work of more than one hundred scholars, The Heritage Guide to the Constitution is a unique line-by-line analysis explaining every clause of America's founding charter and its contemporary meaning. In this fully revised second edition, leading scholars in law, history, and public policy offer more than two hundred updated and incisive essays on every clause of the Constitution. From the stirring words of the Preamble to the Twenty-seventh Amendment, you will gain new insights into the ideas that made America important, debates that continue from our Founding and the Constitution's true meaning for our nation.

Constitutional Conflicts Between Congress and the President Louis Fisher, 2007 A classic on the separation of powers, this book dissects the crucial constitutional disputes between the executive and legislative branches from the Constitutional Convention to the present day. New material includes military tribunals and NSA eavesdropping, disputes over executive orders, state secrets privilege, and post-9/11 wars in Afghanistan and Iraq.

International Law in the U.S. Supreme Court David L. Sloss, Michael D. Ramsey, William S. Dodge, 2011-04-25 From its earliest decisions in the 1790s, the US Supreme Court has used international law to help resolve major legal controversies. This book presents a comprehensive account of the Supreme Court's use of international law from its inception to the present day. Addressing treaties, the direct application of customary international law, and the use of international law as an interpretive tool, this book examines all the cases or lines of cases in which international law has played a material role, showing how the Court's treatment of international law both changed and remained consistent over the period. Although there was substantial continuity in the Supreme Court's international law doctrine through the end of the nineteenth century, the past century has been a time of tremendous doctrinal change. Few aspects of the Court's

international law doctrine remain the same in the twenty first century as they were two hundred years ago Constitutional Power and World Affairs Sutherland George,2013-01-28 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **The Conduct of American Foreign Relations** John Mabry Mathews,1922 **The Constitution and the Conduct of American Foreign Policy** David Gray Adler,Larry Nelson George,1996 In this provocative and readable volume eleven leading constitutional authorities challenge business as usual in American foreign policymaking For far too long they contend Americans have acquiesced to presidential claims to sweeping executive powers in foreign affairs thanks to imperial minded presidents a weak willed Congress and neglectful scholars These authors forcefully argue that the president is not the supreme crafter of foreign policy and that Congress must provide more than a rubber stamp for the president s agenda Unilateral presidential control of foreign relations they warn can pose a grave threat to our nation s welfare and is simply without constitutional warrant Combining constitutional theory with keen historical insights these authors illuminate the roots of presidential abuse of executive power and remind us of the past and potential costs of such disregard for our unique system of checks and balances An essential guide for all concerned citizens and members of Congress this volume should help revive a proper understanding of this crucial dimension of American democracy **Foreign Affairs and the EU Constitution** Robert Schütze,2014-10-16 A collection of essays that surveys the development and structure of the European Union s constitutional regime for foreign affairs **Exercising Congress's Constitutional Power to End a War** United States. Congress. Senate. Committee on the Judiciary,2009 *World Affairs* ,1928 Includes the Annual report of the American Peace Society *Columbia University Studies in the Social Sciences* ,1924 War, Foreign Affairs, and Constitutional Power: The origins Abraham D. Sofaer,Henry Bartholomew Cox,1976 **The American Political Science Review** Westel Woodbury Willoughby,John Archibald Fairlie,Frederic Austin Ogg,1919 American Political Science Review APSR is the longest running publication of the American Political Science Association APSA It features research from all fields of political science and contains an extensive book review section of the discipline The Constitutional Review Henry Campbell Black,Herbert Francis Wright,1919 Includes section Book reviews
