Consumerism In World History:

Consumerism in World History Peter N. Stearns, 2025-02-26 The third edition of *Consumerism in World History* explores the nature of consumerism and its evolution with particular emphasis on the modern consumer revolution and its global scope The book deals with crucial interpretive issues such as whether consumerism is a natural human expression or involves other causes the relationship between consumer apparatus such as shops and advertising and human needs and the interplay between Western and other regional forms of consumerism It covers major historical moments and changes including the consumer revolution in Western society beginning in the 17th century and regional cultural patterns from the 19th century onward This is a substantially revised edition with updated suggested readings rewritten sections on premodern consumerism in agricultural societies and globalization and consumerism and expanded coverage of major regions like India and Latin America This volume is essential reading for all students of world history and will be of great value to those in business history and environmental history

Consumerism in World History Peter N. Stearns, 2001 The desire to acquire luxury goods and leisure services is a basic force in modern life This second edition of *Consumerism in World History* draws on recent research and explores both the historical origins and world wide appeal of this modern phenomenon

Global Trade and the Transformation of Consumer Cultures Beverly Lemire, 2018-01-11 The oceanic explorations of the 1490s led to countless material innovations worldwide and caused profound ruptures Beverly Lemire explores the rise of key commodities across the globe and charts how cosmopolitan consumption emerged as the most distinctive feature of material life after 1500 as people and things became ever more entangled She shows how wider populations gained access to more new goods than ever before and through industrious labour and smuggling acquired goods that heightened comfort redefined leisure and widened access to fashion Consumption systems shaped by race and occupation also emerged Lemire reveals how material cosmopolitanism flourished not simply in great port cities like Lima Istanbul or Canton but increasingly in rural settlements and coastal enclaves The book uncovers the social economic and cultural forces shaping consumer behaviour as well as the ways in which consumer goods shaped and defined empires and communities

Documents in World History Peter N. Stearns, Stephen Spencer Gosch, Erwin Peter Grieshaber, 2003 This biography traces the career of Frenchman Jacques Coeur royal official merchant and financier amidst war and exploration in fifteenth century Europe and invites readers to consider Coeur's career against a broad historical context

The Persuasion Industries Steven McKevitt, 2018-08-08 At the end of the twentieth century Britain was a consumer society Commerce intoxicating and addictive had almost entirely colonized modern life People were immersed in and ultimately defined by promotional culture The things they consumed had overtaken class religion geography or occupation as the primary form of self identity and self expression For much of the twentieth century all forms of brand communication from political campaigning to product advertising were based on the theory of rational appeals to rational consumers There was only one problem with this theory

it was wrong The Persuasion Industries The Making of Modern Britain examines developments in marketing advertising public relations and branding It explores the role they played in the emergence of the consumer society New ideas from fields of behavioural psychology and economics together with internal developments such as planning positioning and corporate branding allowed persuasion to become the driving force within many commercial enterprises Together these changes led to the emergence of an alternative emotional model of brand communication A simple idea that proved so compelling it changed the world we live in *Berkshire Encyclopedia of World History*, 2005 A comprehensive encyclopedia of world history with 538 articles that trace the development of human history with a focus on area studies global history anthropology geography science arts literature economics women's studies African American studies and cultural studies related to all regions of the world Provided by publisher *Domesticating the World* Jeremy Prestholdt, 2008-01-15 Ingeniously stands the study of globalization and trade on its head Edward Alpers Chair of Department of History UCLA **America in the World** Frank Costigliola, Michael J. Hogan, 2013-12-23 This volume includes historiographical surveys of American foreign relations since 1941 by some of the country's leading historians Some of the essays offer sweeping overviews of the major trends in the field of foreign international relations history Others survey the literature on US relations with particular regions of the world or on the foreign policies of presidential administrations The result is a comprehensive assessment of the historical literature on US foreign policy that highlights recent developments in the field **Consumption and the World of Goods** John Brewer, Roy Porter, 2013-06-17 The study of past society in terms of what it consumes rather than what it produces is relatively speaking a new development The focus on consumption changes the whole emphasis and structure of historical enquiry While human beings usually work within a single trade or industry as producers as say farmers or industrial workers as consumers they are active in many different markets or networks And while history written from a production viewpoint has by chance or design largely been centred on the work of men consumption history helps to restore women to the mainstream The history of consumption demands a wide range of skills It calls upon the methods and techniques of many other disciplines including archaeology sociology social and economic history anthropology and art criticism But it is not simply a melting pot of techniques and skills brought to bear on a past epoch Its objectives amount to a new description of a past culture in its totality as perceived through its patterns of consumption in goods and services Consumption and the World of Goods is the first of three volumes to examine history from this perspective and is a unique collaboration between twenty six leading subject specialists from Europe and North America The outcome is a new interpretation of the seventeenth and eighteenth centuries one that shapes a new historical landscape based on the consumption of goods and services *World History in Brief* Peter N. Stearns, 2007 With its brief global rather than West centered approach World History in Brief Sixth Edition seeks to show how different civilizations developed in a global context Rather than overwhelm students the chief goal of World History in Brief is to present the big picture to facilitate comparison and assessment of change and to highlight the

major developments in the world's history. This text also emphasizes the global interactions of major civilizations so that students can compare and assess changes in the patterns of interaction and the impact of global forces such as migration and technology exchange. The compact size of this text gives instructors the opportunity to take advantage of additional supplementary readings.

The Oxford Handbook of the History of Consumption Frank Trentmann, 2012-03-22 The Oxford Handbook of the History of Consumption offers a timely overview of how our understanding of consumption in history has changed in the last generation.

No Rising Tide Joerg Rieger, 2009-09-24 Economics has always had a moral dimension even free market mascot Adam Smith was a Christian minister. Yet recent events have renewed and recast theological reflection on the economy as the gospel of prosperity succumbs to large scale economic crisis. In that light Joerg Rieger explores the many dimensions of today's economic crisis. What are the fundamental shifts taking place in the global economy today and how are they affecting provision for basic human needs, economic equity and people's prospects?

Empire of Things Frank Trentmann, 2016-03-29 A sweepingly detailed history of humanity's passion for the possession of objects, an epic chronicle. Wall Street Journal: What we consume has become a central, perhaps the central feature of modern life. Our economies live or die by spending; we increasingly define ourselves by our possessions, and this ever richer lifestyle has had an extraordinary impact on our planet. How have we come to live with so much stuff, and how has this changed the course of history? In *Empire of Things*, Frank Trentmann unfolds the extraordinary story of our modern material world from Renaissance Italy and late Ming China to today's global economy. While consumption is often portrayed as a recent American export, this monumental, richly detailed account shows that it is a truly international phenomenon with a much longer and more diverse history. Trentmann traces the influence of trade and empire on tastes as formerly exotic goods like coffee, tobacco, Indian cotton, and Chinese porcelain conquered the world, and explores the growing demand for home furnishings, fashionable clothes, and convenience that transformed private and public life. The nineteenth and twentieth centuries brought department stores, credit cards, and advertising, but also the rise of the ethical shopper, new generational identities, and eventually the resurgence of the Asian consumer. With an eye to the present and future, Trentmann provides a long view on the global challenges of our relentless pursuit of more from waste and debt to stress and inequality. A masterpiece of research and storytelling, *Empire of Things* recounts the epic history of the goods that have seduced, enriched, and unsettled our lives over the past six centuries.

The Journal of Markets & Morality, 2007

Hoover, Conservation, and Consumerism Kendrick A. Clements, 2000 To some extent Hoover's policies anticipated directions that would be pursued by modern environmentalists. The National Conference on Outdoor Recreation brought together wilderness advocates and urban planners, and passage of the first federal law to limit oil pollution in navigable waters marked the beginning of an ongoing effort to control the effects of industrialization on the environment. Hoover's advocacy of pleasant, affordable housing introduced the idea that our everyday environment is the starting point for environmental concerns.

BOOK JACKET

Globalization in World History Peter N. Stearns, 2023-11-03 In this fully revised fourth edition this book treats globalization from several vantage points showing how these help grasp the nature of globalization both in the past and today The revisions include greater attention to the complications of racism after 1500 and nationalism after 1850 further analysis of reactions against globalization after World War I and in the 21st century more discussion of student exchanges and fuller treatment of developments since 2008 including the role of the Covid 19 pandemic in contemporary globalization Four major chronological phases are explored in the centuries after 1000 CE after 1500 after 1850 and since the mid 20th century Discussion of each phase includes relevant debates over the nature and extent of the innovations involved particularly in terms of transportation communications technologies and trade patterns The phase approach also facilitates analysis of the range of interactions enmeshed in globalization beyond trade and migration including disease exchange impacts on culture and consumer tastes and for the modern periods policy coordination and international organizations Finally the book deals with different regional positions and reactions in each of the major phases This includes not only imbalances of power and economic benefit but also regional styles in dealing with the range of global relationships This volume is essential reading for undergraduate and postgraduate students of world history economic history and political economy World History, 2007-2008 Peggy J. Martin, 2007-03 World History measures understanding of key developments in global history and use of basic historical techniques which includes the application and weighing of evidence and the ability to interpret and generalize *The Anatomy of Consumerism* H. Ram Hormozi, 2019 The Anatomy of Consumerism is a story of greed and obsession and consumption Of waste and environmental degradation Of destruction and despair It is the story of being human In this earnest account of a serious problem in which we are all implicated we come to terms with our collective obsession with material consumption The Anatomy of Consumerism tracks this consumption from the Industrial Revolution through a ravenous stretch of excessive production and acquisition all the way to our digital present a period during which we overconsume as a matter of course and visit irreparable damage on our natural environment as a result It is no wonder the consequences of human greed fester so hotly in debate among economists social scientists and environmentalists The Anatomy of Consumerism wades into this debate s center *Material Culture*, 2004 **Patterns of World History** Peter Von Sivers, Charles Desnoyers, George B. Stow, 2012 Patterns of World History offers a distinct framework for understanding the global past through the study of origins interactions and adaptations Authors Peter von Sivers Charles A Desnoyers and George Stow each specialists in their respective fields examine the full range of human ingenuity over time and space in a comprehensive even handed and critical fashion The book helps students to see and understand patterns through ORIGINS INTERACTIONS ADAPTATIONS These key features show the O I A framework in action Seeing Patterns a list of key questions at the beginning of each chapter focuses students on the 3 5 over arching patterns which are revisited considered and synthesized at the end of the chapter in Thinking Through Patterns Each chapter includes a Patterns Up Close case study

that brings into sharp relief the O I A pattern using a specific idea or thing that has developed in human history and helped in turn develop human history like the innovation of the Chinese writing system or religious syncretism in India Each case study clearly shows how an innovation originated either in one geographical center or independently in several different centers It demonstrates how as people in the centers interacted with their neighbors the neighbors adapted to and in many cases were transformed by the idea object or event Adaptations include the entire spectrum of human responses ranging from outright rejection to creative borrowing and at times forced acceptance Concept Maps at the end of each chapter use compelling graphical representations of ideas and information to help students remember and relate the big patterns of the chapter
