*Contemporary Belarus* Elena Korosteleva, Colin Lawson, Rosalind Marsh, 2003-08-27 This book provides a thorough overview of current developments in Belarus It looks at historical political economic and social changes and at international relations especially relations with Russia and the European Union Belarus Andrew Savchenko, 2009 Belarus is known as the last dictatorship of Europe yet its president enjoys public support Its economy remains largely Soviet yet exhibits high growth rates Belarus styles itself as a European country yet clings to Russia as the only ally The book explains these paradoxes by delving into history of Belarusian national institutions including civil society and the state The book starts with an analysis of Belarusian national development from the time of the Grand Duchy of Lithuania to the short lived Belarusian People's Republic of 1918 The discussion turns to the crucial interwar period when all national institutions of modern Belarus had taken shape Belarus's surprising ability to cope with post Soviet economic and geopolitical changes is discussed in the final chapter A History of Russia, Central Asia and Mongolia, Volume II David Christian, 2018-03-12 Provides an all encompassing look at the history of Russia Central Asia and Mongolia Beginning with the breakup of the Mongol Empire in the mid thirteenth century Volume II of this comprehensive work covers the remarkable history of Inner Eurasia from 1260 up to modern times completing the story begun in Volume I Volume II describes how agriculture spread through Inner Eurasia providing the foundations for new agricultural states including the Russian Empire It focuses on the idea of mobilization the distinctive ways in which elite groups mobilized resources from their populations and how those methods were shaped by the region's distinctive ecology which differed greatly from that of Outer Eurasia the southern half of Eurasia and the part of Eurasia most studied by historians This work also examines how fossil fuels created a bonanza of energy that helped shape the history of the Communist world during much of the twentieth century Filled with figures maps and tables to help give readers a fuller understanding of what has transpired over 750 years in this distinctive world region A History of Russia Central Asia and Mongolia Volume II Inner Eurasia from the Mongol Empire to Today 1260 2000 is a magisterial but accessible account of this area's past that will offer readers new insights into the history of an often misunderstood part of the world Situates the histories of Russia Central Asia and Mongolia within the larger narrative of world history Concentrates on the idea of Inner Eurasia as a coherent ecological and geographical zone Focuses on the powerful ways in which the region's geography shaped its history Places great emphasis on how mobilization played a major part in the development of the regions Offers a distinctive interpretation of modernity that highlights the importance of fossil fuels Offers new ways of understanding the Soviet era A History of Russia Central Asia and Mongolia Volume II is an ideal book for general audiences and for use in undergraduate and graduate courses in world history The Blackwell History of the World Series The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world It will comprise some two dozen volumes of which some provide synoptic views of the history of

particular regions while others consider the world as a whole during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very large subject but they are also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production

Understanding Belarus and How Western Foreign Policy Misses the Mark Grigoriï Viktorovich Ioffe, 2008-02-25 In this fascinating study of unfinished nation building in Belarus Grigory Ioffe draws on his two dozen research trips to the country to trace Belarus's history geography political situation society and economy The ambivalent relationship between Russia and Belarus results in a complex situation

*Russia-Eurasia Relations* Merve Suna Ozel Ozcan, 2023-04-03 After the Cold War a new era began in the Eurasian region with the countries that gained their independence from the USSR acquiring a place in the international system After 1991 the absence of strong international gravity in Russia increased the positive relations of many countries with the West As this book shows across the world there are regions caught between identity and power In this respect the ideological origin of the Russian Federation's foreign policy goals is connected with its position as a great power On this note the book analyses the great powers' challenges in Eurasia within the framework of strategic interests conflict and cooperation

EU and Belarus Ann Lewis, Federal Trust for Education and Research, 2002 Belarus is perhaps the least changed of all the former Soviet states with its authoritarian regime non liberalized economy and close links with Russia Yet following enlargement of the European Community it will be an immediate neighbor and a major crossing point between east and west whether for people drugs or energy supplies This book looks at Belarus's checkered history since independence its internal development and international relations and considers prospects for change both before and after enlargement with recommendations on how the European Union might best respond Contributors include a wide range of academics and officials professionals and practitioners from Belarus EU countries and beyond

*State Erosion* Lawrence P. Markowitz, 2013-11-15 State failure is a central challenge to international peace and security in the post Cold War era Yet theorizing on the causes of state failure remains surprisingly limited In *State Erosion* Lawrence P Markowitz draws on his extensive fieldwork in two Central Asian republics Tajikistan where state institutions fragmented into a five year civil war from 1992 through 1997 and Uzbekistan which constructed one of the largest state security apparatuses in post Soviet Eurasia to advance a theory of state failure focused on unlootable resources rent seeking and unruly elites In Tajikistan Uzbekistan and other countries with low capital mobility where resources cannot be extracted concealed or transported to market without state intervention local elites may control resources but they depend on patrons to convert their resources into rents Markowitz argues that different rent seeking opportunities either promote the cooptation of local elites to the regime or incite competition over rents which in turn lead to either cohesion or fragmentation Markowitz distinguishes between weak states and failed states challenges the assumption

that state failure in a country begins at the center and radiates outward and expands the resource curse argument to include cash crop economies where mechanisms of state failure differ from those involved in fossil fuels and minerals Broadening his argument to weak states in the Middle East Syria and Lebanon and Africa Zimbabwe and Somalia Markowitz shows how the distinct patterns of state failure in weak states with immobile capital can inform our understanding of regime change ethnic violence and security sector reform *Belarusian Review* ,2005 *The Soviet and Post-Soviet Review* ,2012
