## CPA PROGRAM SUBJECT OUTLINE – FOURTH EDITION

The Contemporary Business Issues subject examines contemporary and emerging global issues in order to familiarise you with the business environment you are likely to be operating in as an accountant. It uses contemporary issues as a vehicle for advancing the development of professional skills, values, ethics and attitudes. In particular, Contemporary Business Issues is designed to help you develop a future-focused perspective that:

- understands the drivers of change affecting business and the accounting profession
- responds positively to change
- values lifelong learning to continually develop and improve technical, business, behavioural and leadership skills
- recognises that accountants add value by providing strategic business advice and contributing to good decision making
- acknowledges the importance of ethics, professional curiosity and enquiry as a means of avoiding imprudent decision making
- welcomes divergent opinions and creative approaches to problem solving as a means of gaining insights into an increasingly complex and dynamic business world.

This subject will highlight the challenges and opportunities for the accounting profession in the contemporary business environment.

Contemporary Business Issues is an elective subject in the CPA program.
