Scrivener allowed her students to understand the importance of metaphor in their own coaching with Chapter 2 illuminating how Cather's Neighbor Rosicky addresses the role of emotion After this Eastman considers how John Cheever's multi layered story The Swimmer provides rich stimulus for coaching students in understanding failure how Miller's Death of a Salesman shows how our family relationships are reflected in our office dynamics and how the reactions of her students engaging with Lampedusa's The Leopard are more effective than the traditional coaching tool Personalisis in revealing their personality She finally looks at Shakespeare's The Tempest for exploring themes of power and manipulation in a coaching context By applying coaching models to fictional scenarios Eastman demonstrates that coaches HR professionals and students can successfully extend the boundaries of their coaching strengthen their interventions and enhance their understanding of theory Coaching for Professional Development Using Literature to Support Success is a unique approach to coaching with engaging case studies throughout that brings together higher education and industry It will be key reading for coaches in practice and in training who wish to enhance creativity in their work advisors and teachers on coaching courses and HR and L D professionals working in organizations seeking to implement a coaching culture
