Global Intelligence Oversight Zachary K. Goldman, Samuel James Rascoff, 2016 Global Intelligence Oversight is a comparative investigation of how democratic countries can govern their intelligence services so that they are effective but operate within frameworks that are acceptable to their people in an interconnected world The book demonstrates how the institutions that oversee intelligence agencies participate in the protection of national security while safeguarding civil liberties balancing among competing national interests and building public trust in inherently secret activities It does so by analyzing the role of courts and independent oversight bodies as they operate in countries with robust constitutional frameworks and powerful intelligence services

The Tyranny of Good Intentions Paul Craig Roberts, Lawrence M. Stratton, 2008-03-25 In this updated and expanded edition of *The Tyranny of Good Intentions* Paul Craig Roberts and Lawrence M Stratton renew their valiant campaign to reclaim that which is rightly ours liberty protected by the rule of law They show how crusading legislators and unfair prosecutors are remaking American law into a weapon wielded by the government and how the erosion of the legal principles we hold dear such as habeas corpus and the prohibition against self incrimination is destroying the presumption of innocence A new introduction and new chapters cover recent marquee cases and make this provocative book essential reading for anyone who cringes at the thought of unbridled state power and sees our civil liberties slowly slipping away in the name of the War on Drugs the War on Crime and the War on Terror
