Ike Udogu, 2010-02-19 Confronting the Challenges and Prospects in the Creation of a Union of African States in the 21st Century frames the discourse around the important issue of African unification against the backdrop of the region's political and economic marginalization Arguably the richest continent in the world in terms of its abundant untapped natural resources and human capital it still lags behind the other regions of the world developmentally

Undeniably Africa is at the crossroads in this millennium within the context of the powerful events and effects of the New Globalization. One of the central issues that academics and political actors interested in African development must tackle immediately is how to make the region politically and economically relevant in global affairs. These objectives could be attained through continental amalgamation. Accordingly, this book debates and suggests inter alia strategies that might advance Africa's unification effort in order to provide the politico-economic clout needed to spur continental development. Further, it argues that such a Union of African States is critical for promoting the good political life for all Africans.

Minority Rules David Lublin, 2014. In *Minority Rules*, David Lublin eschews the usual approach of shining attention on conflict and instead looks at the representation of minority groups in largely peaceful and democratic countries throughout the world.

Contemporary Governance Challenges in the Horn of Africa Charles Manga Fombad, Assefa Fiseha, Nico Steytler, 2022-09-06. This book argues that a leading cause of the political instability in the Horn of Africa is a crisis of governance caused by extreme centralization of power, weak institutions, and the failure to institutionalise the responsible use of authority. In recent years, many attempts have been made to resolve the ongoing conflicts in Somalia and South Sudan, but problems remain, and in 2019, the instability spread to Ethiopia. This book critically examines how many of the governance problems in the region can be addressed through institutional design. The central argument is that an inclusive system of governance through federalism, devolution, and inclusive political institutions, as well as ensuring the institutionalization of power through strengthening the rule of law, has the potential to make governments more accountable, inclusive, and able to deliver critical services. Such systems ensure relative stability and peace and reduce the risks of state fragmentation, a major concern in the region. Demonstrating that the threats of further fragmentation and conflict due to the crisis of governance are likely to continue unless serious steps are taken to deal with the situation, the book will be an important read for researchers and policy makers with an interest in peacemaking, politics, constitutional law, and federalism in the region.

The Federal Contract Stephen Tierney, 2022. This book rethinks the idea and practice of federalism and considers the specific constitutional purposes that federalism serves. Using the methodology of constitutional theory, the book re-evaluates our understanding of federalism in its historical development and present incarnations.
