Constructing Community Moral Pluralism And Tragic Conflicts

Terence Ball, Richard Dagger

Constructing Community Moral Pluralism And Tragic Conflicts:

Constructing Community J Donald Moon, 1993-01-01 In developing a new theory of political and moral community J Donald Moon takes questions of cultural pluralism and difference more seriously than do many other liberal thinkers of our era Moon is willing to confront the problem of how community can be created among those who have very different views about the proper ends of human life Experiencing such profound disagreement can we live together in a society under norms we all accept In recent years traditional ways of looking at this query have come under attack by post modernists feminists and thinkers concerned with pluralism Respectfully engaging their critiques Moon proposes a reformulated liberalism that is intended to overcome the problems they have identified In developing a new theory of political and moral community J Donald Moon takes questions of cultural pluralism and difference more seriously than do many other liberal thinkers of our era Moon is willing to confront the problem of how community can be created among those who have very different views about the proper ends of human life Experiencing such profound disagreement can we live together in a society under norms we all accept In recent years traditional ways of looking at this query have come under attack by post modernists feminists and thinkers concerned with pluralism Respectfully engaging their critiques Moon proposes a reformulated liberalism that is intended to overcome the problems they have identified *The Tragedy of Liberalism* Bert van den Brink, 2000-08-24 A defense of liberalism understood as a perfectionist doctrine that presupposes an ideal but controversial notion of human well being Community and Conflict D. Edyvane, 2007-04-25 Rather than undermining it this book argues that moral conflict is necessary for a liberal political community It develops a new philosophical basis for political association based on an innovative account of the way journey narratives in literature shed light on the possibilities for solidarity in modern democratic societies **Beyond Gated Politics** Romand Coles, *Beyond Gated Politics* argues that the survival of democracy depends on recognizing the failings of disengaged liberal democracy and experimenting with more radical modes of democratic theory and action Romand Coles moves beyond the paradigms of political liberalism deliberative democracy and communitarian republicanism cultivating modes of public discourse that reflect and sustain the creative tension at the heart of democratic life and responsibility *Defending Rorty* William M. Curtis, 2015-08-14 Liberal democracy needs a clear eyed robust defense to deal with the increasingly complex challenges it faces in the twenty first century Unfortunately much of contemporary liberal theory has rejected this endeavor for fear of appearing culturally hegemonic Instead liberal theorists have sought to gut liberalism of its ethical substance in order to render it more tolerant of non liberal ways of life This theoretical effort is misguided however because successful liberal democracy is an ethically demanding political regime that requires its citizenry to display certain virtues and habits of mind Against the grain of contemporary theory philosopher Richard Rorty blends American pragmatism and romanticism to produce a comprehensive vision of liberal modernity that features a virtue based conception of liberal democracy In doing so Rorty defends his pragmatic liberalism against a host of

notable interlocutors including Charles Taylor Nancy Fraser Hilary Putnam Richard J Bernstein and Jean Bethke Elshtain

Enduring Liberalism Robert Booth Fowler, 1999 *Enduring Liberalism* pursues two objectives One it explores the political thought of public intellectuals and the general public since the 1960s Two it assesses contemporary and classic interpretations of American political thought in light of the study's findings **BOOK JACKET**

Radical Critiques of the Law Stephen M. Griffin, Robert C. L. Moffat, 1997 The past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of American law and the institutions of the liberal state In this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory The authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of American law should take Writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory A third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech Each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views The resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice A common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting *Radical Critiques of the Law* is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are Proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best

Becoming Free Emily R. Gill, 2001 As ethnic racial religious and gender based groups demand rights to pursue radically diverse lifestyles or maintain their cultural traditions conflict seems inevitable even in a free society Government may offer remedies to social dilemmas such as affirmative action curbs on immigration or protection of gay rights but these may only fan the flames of resentment Yet any society that tolerates and protects diversity is more likely to preserve the freedom to live one's life without interference Emily Gill reexamines the liberal tradition to reconcile its core commitments to autonomy and diversity values that in theory are complementary but in practice are often at odds and to show that the interaction of these values determines how we as individuals become free In *Becoming Free* she argues that true freedom is enhanced through the promotion of diversity and the encouragement of rational reflection on the options it allows and that limited choice or

ignorance diminishes such freedom Yet an incomplete freedom is what many individuals groups and states advocate when they commit to particular cultural traditions or religious beliefs despite the autonomy they themselves enjoy Gill traces the implications of these conflicting views by drawing on recent scholarship and legal decisions in six areas national citizenship cultural membership ethnicity and gender religious belief sexuality and civic education By exploring the tensions between autonomy and diversity in such instances as Boy Scouts membership restrictions gay rights legislation and education among the Amish she not only offers an insightful commentary on current issues but also explores the moral foundations of liberal thought Unlike those who criticize liberalism for its shallow philosophical grounding Gill shows it to have a substantive moral content grounded in the individual s capacity to make rational decisions based on critical reflection In her tightly woven arguments she explores real world problems in a meaningful way for students and for anyone concerned with the future of liberalism showing that becoming free is an ongoing process of human and social development

Groups and Group

Rights Christine T. Sistare, Larry May, Leslie Francis, 2001 In matters such as affirmative action or home schooling rights of ethnic and other minority groups often come into conflict with those of society in a culturally diverse population such as ours But before considering the dilemmas posed by these issues we must first ask such basic but important questions as what group rights are and how they intersect with the principles of democracy This new collection brings together some of today s leading thinkers from the cutting edge of these debates taking in a broad range of issues confronting philosophers sociologists and political scientists Contributors such as Carl Wellman Carol Gould and Rex Martin examine the nature of groups and the conflict between group rights and democracy and also consider case studies depicting current issues in cultural ethnic and religious rights The first section on the nature of groups examines some of the perplexing alternatives in the formulation of a theory of group rights These articles investigate the kinds of rights minorities might claim and ask when groups can be held responsible for the acts of some of their members The second section addresses the treatment of groups in a democracy and the precarious balance between indifference toward minorities and capitulation to their demands Here the contributors examine five principles for the sensitive treatment of minority and disadvantaged groups in a democratic society A final section explores specific conflicts between subgroup and societal claims through case studies dealing with affirmative action religious practice and the education of children and the land rights of indigenous peoples By drawing on the legal and political dilemmas related to these cases the authors confront issues of core versus peripheral interests of individual member versus subgroup rights and of the possibilities for social openness raised in the preceding sections Written from varied perspectives Groups and Group Rights offers stimulating reading for both students and professionals as it takes on some of the most pressing dilemmas confronting our society

Moral Discourse in a Pluralistic World Daniel Vokey, 2001 By clarifying the ways in which agreement on moral issues between people from different traditions can be pursued through moral discourse this book provides a coherent conceptual framework for addressing the political social and

environmental problems arising from unresolved moral conflict **Understanding Habermas** Erik Oddvar Eriksen, Jarle Weigård, 2003 This overview of Habermas work explores the way in which his theories have developed and changed leading to an exposition of his more complex ideas and theories His theory of communicative action is analysed as are key themes and how they inter relate Political Liberalism and the Politics of Race Utz Lars McKnight, 1996 *The Art of Political Leadership* Fred I. Greenstein, 2006 Fred Greenstein has been a paragon of scholarship and practical advice in his many years of work on the presidency Here some of the leading scholars of the presidency and leadership studies come together to pay tribute to Greenstein and his work Original essays reflect the broad sweep of Greenstein s scholarship from the systematic study of personality and politics to the analysis of chief executives from Woodrow Wilson on The essayists pay special attention to the political styles advisory systems and decision making processes of presidents from the 1920s to today In his studies of the American presidency Greenstein pioneered the use of archival documents to test hypotheses and illuminate issues that bear on the performance of the modern executive office The distinguished list of contributors to this volume include John Burke Robert A Dahl Alexander and Juliette George Betty Glad Alonzo Hamby Erwin Hargrove John Kessel Anthony King Kenneth Kitts J Donald Moon and Fred Greenstein s first and last graduate students at Princeton Larry Berman and Meena Bose Greenstein himself generously writes a new essay on Plumbing the Presidential Psyche adding to his substantial contributions to political psychology Proceedings and Addresses of the American Philosophical Association American Philosophical Association, 1995 List of members in v 1 *Hastings Law Journal* , 1995 Ideals and Ideologies Terence Ball, 2006 Presenting key selections from a wide array of original sources this collection covers the gamut of ideologies from the classic standards to newly emerging ideologies and puts students directly in touch with the thinkers and the ideas that have shaped our world This new edition of Ball as such it includes readings from a variety of ideological traditions ignored or thoroughly marginalized by other textbooks **Africa Today** , 1998 *Political Ideologies and the Democratic Ideal* Terence Ball, Richard Dagger, 2002 Providing a clear concise and comprehensive introduction to the ideas and ideals that shake and shape our political world the Fourth Edition of this best seller has been extensively revised and updated Written in the firm belief that ideology is the driving force of nation states history and politics this innovative and clearly written text covers the gamut of contemporary political ideologies from the standard categories of liberalism conservatism socialism to newly emerging ideological alternatives The new edition features an expanded discussion of native people s liberation movements and a greatly expanded chapter on green politics A companion volume of readings from primary sources IDEALS AND IDEOLOGIES A READER has also been revised to reflect changes in modern political movements and their animating ideologies Give Value Pack ISBN 0 201 75352 9 to your bookstore to order the text reader package **Common Pool Resources and Collective Action** Fenton S. Martin, Charlotte Hess, 1989 An Evidence-based Approach to the Practice of Educational Leadership Ronald W. Rebores, Angela Lynn Evans Walmsley, 2007

This text presents a thorough and current best practice treatment of Educational Leadership in schools and school districts that addresses the complex use of quantitative and qualitative evidence in the decision making process. The text covers the full range of introductory issues faced by school leaders today and emphasizes areas that are critical and timely. The authors address standard leadership topics and also further explore current social, cultural, technological, and economic realities. This text utilizes ISLLC/ELCC guidelines so that students can develop a leadership approach that reflects current standards and is organized around the processes and procedures necessary for implementing effective learning environments.
