Consumption Structure And Macroeconomics Structural Change And The Relationship Between Inequality And Growth:

Consumption Structure and Macroeconomics Reto Foellmi, 2006-03-30 This book offers a novel perspective that allows to incorporate changing consumption and production structure into models of economic growth Starting from the empirical observation that income and consumption structure are closely related it develops a tractable theoretical framework which enables to analyze macroeconomic models consistent with these empirical facts As a result central macroeconomic phenomena are better understood the reasons behind long run growth structural change and the influence of inequality on innovations and growth

Consumption Structure and Macroeconomics Reto Föllmi, 2005 [Income Distribution in Macroeconomic Models](#) Giuseppe Bertola, Reto Foellmi, Josef Zweimüller, 2014-09-28 This book looks at the distribution of income and wealth and the effects that this has on the macroeconomy and vice versa Is a more equal distribution of income beneficial or harmful for macroeconomic growth and how does the distribution of wealth evolve in a market economy Taking stock of results and methods developed in the context of the 1990s revival of growth theory the authors focus on capital accumulation and long run growth They show how rigorous optimization based technical tools can be applied beyond the representative agent framework of analysis to account for realistic market imperfections and for political economic interactions The treatment is thorough yet accessible to students and nonspecialist economists and it offers specialist readers a wide ranging and innovative treatment of an increasingly important research field The book follows a single analytical thread through a series of different growth models allowing readers to appreciate their structure and crucial assumptions This is particularly useful at a time when the literature on income distribution and growth has developed quickly and in several different directions becoming difficult to overview
