Growth Time of Microgreens Herbs What Do I Need for Container Herb Gardening Ornamentals Plants Variety of Ornamental Plants Different Varieties of Orchids Types of Bonsai Keeping the plants well fed is easier because they are kept in a small confined area meaning all the nutrients will be absorbed solely by the plant itself Plants in the garden have other plants next to them that can share the nutrients It is a real time saver too With containers the watering feeding weeding and spraying is easy to do In places where watering is limited container gardening can also be the solution In areas where there are very hot and dry summers there can be drought and potted plants do not require as much water as a full garden planted in the yard In the North you can utilize tropical plants They can be potted and treated as summer specimens and then brought in for the winter Whether you have a small yard small patio or live in a high rise building with no yard or patio container gardening is only limited by your imagination Window boxes colorful barrels hanging baskets and large flowerpots are just some of the containers that can be used for this accomplishment The container gardener can be a luxurious and beautiful thing Click BUY NOW bottom
