Contemplation Of The World Figures Of Community Style:

The Contemplation of the World Michel Maffesoli, 1996 In *The Contemplation of the World* eminent French theorist Michel Maffesoli pursues and extends his project of decoding contemporary societies Here Maffesoli questions afresh the mundane stuff of contemporary sociality seeking to discern its primary mode of expression its forms style rules and principles its aesthetics The advent of postmodernity marks the beginning of the society of the image It is as if the fragmentation of the social has gradually and necessarily corresponded to massive crumbling of our representations of the real and resulted in their infinite refraction Henceforward we are living in the heart of an ever increasing entanglement of objects signs and images Located somewhere between dream and reality we are the unfettered prisoners of a symbolic universe of growing opacity and mysterious meanings In *The Contemplation of the World* Maffesoli seeks to explore those unobtrusive links that regulate and organize the ensemble of our representations the raw material refashioned in our imaginary and our fantasies exploring what it is that is recognizably postmodern about them Maffesoli proposes a map of the vast domain of the collective imaginary allowing us to better understand where today's culture stands and helping us to perceive within its clamorous confines the outlines still frail of a community ideal Conscious Acts and the Politics of Social Change Robin L. Teske, Mary Ann Tétreault, 2000
