economy while contributing to a more sustainable future Covering topics such as brand accessibility service dynamics and carbon neutrality this book is an excellent resource for business leaders policymakers computer scientists professionals scholars researchers academicians and more

**Towards an Elite Theory of Economic Development** Tomas Casas-Klett, 2025-11-17 This profoundly ambitious theoretical work centers on value understood as everything humans deem worth appropriating Every society is hierarchical and the top echelons are dominated by elites the quality of which in the business politics and knowledge arenas determines economic and human development All elites run elite business models that both create and extract value originate or transfer risk and use their power and agency to shape institutions This book argues that when inclusive value creation outweighs extractive value transfers the outcomes for society at large are positive Sustainable value creation happens when intra elite contests result in more innovation than rent seeking more free trade than protectionism and more competition than monopolies Leveraging diverse ideas from economics value sociology power political economy the distribution of value and management the value creation and appropriation framework the book advances a sweeping inter disciplinary framework that positions the meso level elite system at its core This extends the institutional perspective and acts as the transmission mechanism between the micro level firm and the macro level political economy A wealth of elite business model cases are considered throughout its pages ranging from Neolithic grain to AI and from Caesar to Trump to further an elite theory of economic development that transcends traditional Left Right debates is rooted in its own speculative philosophy and yet is highly practical with proposals for structural reform cost of equity calculations and an approach to sustainability based on weighting and offsetting extractive transfers This economic treatise supplies the conceptual tools for a realistic account of how the world works today and in its discussion of elite judgment offers an ethical framework to guide elite transformational leadership It will be essential reading for researchers policymakers and business leaders around the world looking for fresh ideas on how to navigate and reappraise how we address current realities

**Mediating Plurality** Morten Bay, 2025-03-24 In this book Morten Bay provocatively questions whether or not truth in media is lost and furthermore whether humans can perceive objective reality or as many neuroscientists and philosophers now believe we all perceive different realities constructed through predictive processing As affective polarization continues to render American democracy increasingly dysfunctional a situation largely inflamed by media Bay calls for a cultural shift in which these two conditions are reconciled Drawing on political philosophy this book presents an ethics that holds up responsible media conduct as a democratic duty of all media users This shift in ethical frameworks carries with it different implications for a variety of audiences including individuals media platforms and corporations media practitioners and journalists media studies scholars and society more broadly Each stakeholder involved will need to reconsider their approach to media and reality individuals must accept that everyone's perceptions of reality are different platforms and corporations must cease irresponsible practices that dissociate realities and stoke division

practitioners and journalists must develop more nuanced epistemologies beyond The Truth and scholars must redefine media by foregrounding epistemology pluralism and physicality in media theory Collectively Bay argues we must come to a new understanding of reality as a plurality of realities a plureality      **Global Business Environment** Mansi Kapoor,2025-03-11

This book discusses the shifting paradigms in global business environment from the Fourth Industrial Revolution Industry 4.0 to the Fifth Industrial Revolution Industry 5.0 It captures the current shifts in the global environment for business caused mainly by the disruptive nature of rapid technological advancements and the consequences of globalisation which impact political social and economic changes Divided into six sections Political Economic Socio Cultural Technological Ethical Environmental this book attempts to build perspectives on current trends sweeping globally across political technological socio cultural and economic landscapes Furnished with up to date examples and case studies it presents an exhaustive yet lucid view of current socio economic realities the latest technological advancements political undercurrents and the issues and challenges confronting organisations and institutions both globally and locally It is a compelling narrative based on ongoing years of deep research cases theoretical frameworks and insights that can help navigate what seems like an unimaginable future This book will be useful to students researchers and teachers of management economics liberal arts and related social sciences disciplines It will also be a useful reference for those studying Public Policy and Law      *COVID-19, Tourist Destinations and Prospects for Recovery* Kaitano Dube,Godwell Nhamo,MP Swart,2023-03-01 The COVID 19 pandemic had a devastating impact on tourist destinations in developing and developed countries Though the entire globe was impacted the short and long term implications for tourism as well as prospects for recovery vary across regions This volume showcases research on the impact of COVID 19 on tourism from across the world The book is divided into three parts with the stage set by an introductory chapter that will provide a background and context Part I contains chapters that explore the impact of COVID 19 on selected international tourist destinations Part II showcases how various hotspots across the world adjusted to the new normal under pandemic conditions Part III is a collection of chapters that address how various destinations are attempting to recover from the shocks of the COVID 19 pandemic The concluding chapter written by the editors seeks to synthesize the lessons offered in the book and provide policy and practical implementation for the tourism industry and other important tourism stakeholders      Essentials of Management Information Systems Kenneth C.

Laudon,Jane Price Laudon,2002 Exceptionally practical in approach this book prepares learners for the constantly changing demands of using information systems as managers in today's fast paced organizations first by relating MIS to management the organization and technology focusing on the importance of integrating these elements second by tracking emerging technologies and organizational trends and third by consistently using examples taken from real businesses both domestic and foreign A four part organization covers organizations management and the networked enterprise information technology infrastructure management and organizational support systems for the digital firm and building information systems in the

digital firm For business managers in the 21st century      **Management Information Systems** Kenneth C. Laudon,1998
