worth it The Small Business Administration claims 50% of small businesses fail within the first year and 95% fail within the first 5 years I didn't want to invest in a business then lose all my money I was skeptical of everyone and I was surrounded by gurus claiming to have the answer to online business The truth is there are several models that work and everything all boils down to the same concepts While I started out selling random products on auction websites 4 years later I wound up with an enterprise of nearly a dozen employees and over 8 websites Each site brings in profit each month like a stream of passive income flowing into one big river The revenue from all of these websites is over 5 million a year This is the new wave of creating financial stability and it all starts with a blog Think of it like real estate You can create the building style it to attract certain people then make money off those who enter While it is not as easy as it may sound it can be done quickly and for very little upfront cost In this book I will teach you Pure gold nuggets of internet marketing you will remember for years to come The secret of customer acquisition through multiple mediums ranging from free to paid How to turn a profit from each visitor This can range from completely passive advertisements to selling them products with huge profit margins My favorite barely known resources for getting painful tasks done cheaply The best paying affiliate and advertising programs this can make or break your website How our team routinely makes sales over 500 profit Typically people who want coaching with me need to pay 300 hr Here's the truth 99% of the people who actually make a killing on the internet are not writing books about it The majority of people publishing books make their income through branding themselves NOT through the tactics discussed here Executing what is taught in this book will allow you to enjoy a business where you do not need to reveal your identity and can lay low behind the scenes If you find the instructions and tactics in this book are not useful return it and get a full refund This book is not for everyone it is only for those who truly want to learn the foundations of creating wealth online for years to come You don't have to sit on the fence any longer Scroll up dive in and enjoy the journey
