**From Great Britain to Woke Britain** Conrad Riker,101-01-01 Are you tired of seeing the values that once made Britain great being eroded by feminist and Marxist ideologies Do you feel like men are being unfairly targeted and marginalized in today s society Are you concerned about the future of your family and the next generation This book is a wake up call for redpilled men who are ready to take a stand against the forces that are tearing apart the fabric of our society Here s what you ll gain from reading it Understand how feminist policies have dismantled traditional family structures and undermined the role of men Discover the long term consequences of no fault divorce and the rise of family courts that favor women Learn how the feminization of academia and industry is producing a generation of directionless youth Explore the impact of Marxist activism on education and the erosion of meritocracy Uncover the truth about the war on discipline and how it s creating weak unprepared men See how the feminist capture of policing is prioritizing emotions over justice Get insights into the economic and demographic challenges caused by declining birth rates and mass migration Find out how you can reclaim masculine virtues and restore balance to society If you want to understand the root causes of societal decay and take action to rebuild a strong resilient future then buy this book today It s time to stop the woke agenda and reclaim our nation

**The De Gruyter Handbook of Automated Futures** Vaike Fors,Martin Berg,Meike Brodersen,2024-09-23 How does automation affect us our environment and our imaginations What actions should we take in response to automation Beyond grand narratives and technology driven visions of the future what more can automation offer With these questions in mind The De Gruyter Handbook of Automated Futures provides a framework for thinking about and implementing automation differently It consolidates automated futures as an inter and transdisciplinary research field embedding the imaginaries interactions and impacts of automation technology within their social historical societal cultural

and political contexts Promoting a critical yet constructive and engaging agenda the handbook invites readers to collaborate with rather than resist automation agendas It does so by pushing the agenda for social science humanities and design beyond merely assessing and evaluating existing technologies Instead the handbook demonstrates how the humanities and social sciences are essential to the design and governance of sustainable sociotechnical systems Methodologically the handbook is underpinned by a pedagogical approach to staging co learning and co creation of automated futures with rather than simply for people In this way the handbook encourages readers to explore new and alternative modes of research fostering a deeper engagement with the evolving landscape of automation

**Power in Ideas** Kirsten Adams, Daniel Kreiss, 2021-05-13 This Element develops an analytical framework for understanding the role of ideas in political life and communication Power in Ideas argues that the empirical study of ideas should combine interpretive approaches to derive meaning and understand influence with quantitative analysis to help determine the reach spread and impact of ideas This Element illustrates this approach through three case studies the idea of reparations in Ta Nehisi Coates s The Case for Reparations the idea of free expression in Mark Zuckerberg s Facebook policy speech at Georgetown University and the idea of universal basic income in Andrew Yang s Freedom Dividend Power in Ideas traces the landscapes and spheres within which these ideas emerged and were articulated the ways they were encoded in discourse the fields they traveled across and how they became powerful

**Digital Intermediation** Jonathon Hutchinson, 2023-05-31 Digital Intermediation offers a new framework for understanding content creation and distribution across automated media platforms a new mediatization process This book draws on empirical and theoretical research to carefully identify and describe a number of unseen digital infrastructures that contribute to a predictive media production process through technologies institutions and automation Field data is drawn from several international sites including Los Angeles San Francisco Portland London Amsterdam Munich Berlin Hamburg Sydney and Cartagena By highlighting an increasingly automated content production and distribution process this book responds to a number of regulatory debates on the societal impact of social media platforms It highlights emerging areas of key importance that shape the production and distribution of social media content including micro platformisation and digital first personalities This book explains how technologies institutions and automation are used within agencies to increase exposure for the talent they manage while providing inside access to the processes and requirements of producers who create content for platform algorithms Finally it outlines user agency as a strategy for those who seek diversity in the information they access on automated social media content distribution platforms The findings in this book provide key recommendations for policymakers working within digital media platforms and will be invaluable reading for students and academics interested in automated media environments
