Global Health, Humanity and the COVID-19 Pandemic Francis Egbokhare,Adeshina Afolayan,2023-02-24 This
volume interrogates global health and especially the scourge of the COVID 19 pandemic and the role that science has played
in mitigating the human experiences of pandemics and health over the centuries Science and the scientific method has
always been at the forefront of the human attempt at undermining the virulent consequences of sicknesses and diseases
However the scientific image of humans in the world is founded on the presumption of possessing the complete
understanding about humans and their physiological and psychological frameworks This volume challenges this scientific
assumption Global health denotes the complex and cumulative health profile of humanity that involves not only the
framework of scientific researches and practices that investigates and seeks to improve the health of all people on the globe
but also the range of humanistic issues economic cultural social ideological that constitute the sources of inequities and
threat to the achievement of a positive global health profile This volume balances the argument that diseases and pandemics
are human problems that demand both scientific and humanistic interventions *Time Out Film Guide* John Pym,2004 This
