Writing and Editing for Digital Media Brian Carroll, 2025-12-12 An essential guide to writing and editing for digital media, this sixth edition responds to the mainstreaming of genAI. Generative AI and LLMs (Large Language Models) among many other changes in the best practices of digital storytelling. Carroll explains and demonstrates how to effectively write for digital spaces and places that typically abound with graphical content, multimedia, and hypertextual interactive elements. He also combines hands-on practical exercises with information on key topics such as misinformation and disinformation and the proliferation of artificial intelligence. This new edition specifically explores the ethical questions raised by AI as well as the new possibilities it presents. Each chapter features lessons and exercises through which students can build a solid understanding of the ways that digital communication provides opportunities for dynamic storytelling and multi-directional communication. It also speaks to writers, editors, public relations practitioners, and social media managers and marketers. Updated with contemporary examples and new pedagogy throughout, this is the ideal handbook for students seeking careers in digital media, particularly in content development and digital storytelling. It is an essential text for students of media communication, public relations, marketing, and journalism who are looking to develop their writing and editing skills for these ever-evolving fields and professions. This book also has accompanying Support Material that offers additional weekly activities and assignments, providing students additional opportunity to put theory into practice.

*Assembling Tomorrow* Scott Doorley, Carissa Carter, Stanford d.school, 2024-06-18 A powerful guide to why even the most well-intentioned innovations go haywire and the surprising ways we can change course to create a more positive future by two celebrated experts working at

the intersection of design technology and learning at Stanford University's acclaimed d school This brilliant book offers a new approach to all creative work that will expand your understanding of what it means to make and open up possibilities you didn't know existed it did for me Adam Johnson Pulitzer Prize winning author of The Orphan Master's Son In Assembling Tomorrow authors Scott Doorley and Carissa Carter explore the intangible forces that prevent us from anticipating just how fantastically technology can get out of control and what might be in store for us if we don't start using new tools and tactics Despite our best intentions our most transformative innovations tend to have consequences we can't always predict From the effects of social media to the uncertainty of AI and the consequences of climate change the outcomes of our creations ripple across our lives Time and again our seemingly ceaseless capacity to create rubs up against our limited capacity to understand our impact Assembling Tomorrow explores how to use readily accessible tools to both mend the mistakes of our past and shape our future for the better We live in an era of runaway design where innovations tangle with our lives in unpredictable ways This book explores the off kilter feelings of today and follows up with actionables to alter your perspective and help you find opportunities in these turbulent times Mixed throughout are histories of the future short pieces of speculative fiction that imagine the future as if it has already happened and consider the past with a critical yet hopeful eye so that all of us as designers of our own futures can create a better world for generations to come Emerging
