Short Film and Video David K. Irving, Peter W. Rea, 2013-03-20 Producing and Directing the Short Film and Video is the definitive book on the subject for beginning filmmakers and students. The book clearly illustrates all of the steps involved in preproduction, production, postproduction, and distribution. This guide offers extensive examples from award-winning shorts and includes insightful quotes from the filmmakers themselves describing the problems they encountered and how they solved them. **Communicating the Future** W. Lance Bennett, 2020-12-03 We are facing an unprecedented environmental crisis. How can we communicate and act more effectively to make the political and economic changes required to survive and even thrive within the life support capacities of our planet? This is the question at the heart of W. Lance Bennett's much-anticipated book. Bennett challenges readers to consider how best to approach the environmental crisis by changing how we think about the relationships between environment, economy, and democracy. He introduces a framework that citizens, practitioners, and scholars can use to evaluate common but unproductive communication that blocks thinking about change, develop more effective ways to define and approach problems, and design communication processes to engage diverse publics and organizations in developing understandings, goals, and political strategies. Until advocates develop economic programs with built-in environmental solutions, they will continue to lose policy fights. Putting intersectional communication into action requires acknowledging that communication is not only an exchange of messages but an organizational process. *Communicating the Future* is important reading for students and scholars of media and communication as well as general readers concerned about the environmental crisis.

**Dance in US Popular Culture** Jennifer Atkins, 2023-07-21 This innovative textbook applies basic dance history and theory to contemporary popular culture examples in order to examine our own ways of moving in and through culture. By drawing on material relevant to students, *Dance in US Popular Culture* successfully introduces students to critical thinking around the most personal of terrain: our bodies and our identities. The book asks readers to think about what embodied knowledge we carry with us and how we can understand history and society through that lens: what stereotypes and accompanying expectations are embedded in performance related to gender and/or race; for instance, how such expectations are reinforced, negotiated, challenged, embraced, or rescripted by performers and audiences; how readers articulate their own sense of complex identity within the constantly shifting landscape of popular culture; how this shapes an active sense of their everyday lives; and how this can act as a springboard towards dismantling systems of oppression. Through readings, questions, movement analyses, and assignment prompts that take students from computer to nightclub and beyond, *Dance in US Popular Culture* readers develop their own cultural sense of dance and the moving body's sociopolitical

importance while also determining how dance is fundamentally applicable to their own identity This is the ideal textbook for high school and undergraduate students of dance and dance studies in BA and BfA courses as well as those studying popular culture from interdisciplinary perspectives including cultural studies media studies communication studies theater and performance studies Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license

**About Imaginary Borders** Stefanie Dalvai,2020-12-15 Diploma Thesis from the year 2020 in the subject English Language and Literature Studies Linguistics grade 1 University of Innsbruck language English abstract Othering is a language process which does not only occur in spoken language but also in written Nowadays such a negative portrayal and creation of the perfect other is often happening in a rather hidden and indirect manner This paper explores whether Donald J Trump indulged in the act of Othering in his Tweets and whether this happened in a direct or indirect way The findings lead to an understanding whether Othering is being accepted in politics or not What comes as a blessing has also its downsides as not only positive but also negative opinions are omnipresent on the internet This is due to the possibility to upload almost everything as not every website has a way to censor inappropriate content Furthermore having a filter for written or pictured hate crime does not prevent it from happening as it is not always straight forward and hateful messages can come in disguise An uncountable number of these more or less hidden hate crimes are a sort of Othering as people tend to put themselves in

opposition to others to create a sense of solidarity with those who share sameness and to have some excuse to keep up power relationships With this it becomes clear that language itself in the case of this paper explicitly the written one is a powerful tool to exert authority and domination on others especially when used by people in power like politicians Therefore the question this paper tries to answer is how written discourse in the Tweets of Trump creates the feeling of separation and dominance that underlies the act of Othering and whether this reflects a direct or indirect and with this more subtle and normalized use of power discourse In this thesis only those people Trump constantly portrays as dangerous foreigners intruders therefore not Americans are included in the analysis by looking at how he structures his discourse around them These include Mexicans and Muslims both to be found under the umbrella term of illegal immigrants **Feminist**
