**Conspiracy Theories in the Time of Covid-19** Clare Birchall,Peter Knight,2022-11-04 Conspiracy Theories in the Time of Covid 19 provides a wide ranging analysis of the emergence and development of conspiracy theories during the Covid 19 pandemic with a focus on the US and the UK The book combines digital methods analysis of large datasets assembled from social media with politically and culturally contextualised close readings informed by cultural studies In contrast to other studies which often have an alarmist take on the infodemic it places Covid 19 conspiracy theories in a longer historical perspective It also argues against the tendency to view conspiracy theories as merely evidence of a fringe or pathological way of thinking Instead the starting assumption is that conspiracy theories including Covid 19 conspiracy theories often reflect genuine and legitimate concerns even if their factual claims are wide of the mark The authors examine the nature and origins of the conspiracy theories that have emerged the identity and rationale of those drawn to Covid 19 conspiracism how these conspiracy theories fit within the wider political economic and technological landscape of the online information environment and proposed interventions from social media
